

#### 4.0 Record of Decision

The military will continue to be a good steward of the environment on Bellows AFS. All practicable means to avoid or minimize environmental harm have been adopted. Efforts will be made to preserve sensitive cultural resources. Further subsurface investigations will be done prior to any new excavations or significant soil disturbance. Mitigative actions will be accomplished prior to, during, and after training activities.

Signed May 7, 1996 by J.W. Prueher, Admiral, U.S. Navy

#### DEPARTMENT OF ENERGY

[FE Docket No. EA-114]

##### Application to Export Electricity MidCon Power Services Corp.

**AGENCY:** Office of Fossil Energy, DOE.

**ACTION:** Notice of application.

**SUMMARY:** MidCon Power Services Corp. (MPS) has requested authorization to export electric energy to Canada. MPS is a marketer of electric energy. It does not own or control any electric generation or transmission facilities.

**DATES:** Comments, protests, or requests to intervene must be submitted on or before July 5, 1996.

**ADDRESSES:** Comments, protests, or requests to intervene should be addressed as follows: Office of Coal & Electricity (FE-52), Office of Fuels Programs, Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585-0350.

**FOR FURTHER INFORMATION CONTACT:** William H. Freeman (Program Office) 202-586-5883 or Michael T. Skinker (Program Attorney) 202-586-6667.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On May 21, 1996, MPS filed an application with the Office of Fossil

Energy (FE) of the Department of Energy (DOE) for authorization to export electric energy to Canada pursuant to section 202(e) of the FPA. MPS neither owns nor controls any facilities for the transmission or distribution of electricity, nor does it have a franchised retail service area. Rather, MPS is a power marketer authorized by the Federal Energy Regulatory Commission (FERC) to engage in the wholesale sale of electricity in interstate commerce at negotiated rates pursuant to its filed rate schedules.

In its application, MPS proposes to sell electric energy to Canada. The electric energy MPS proposes to transmit to Canada would be purchased from electric utilities and other generators. MPS asserts that such energy would be surplus to the requirements of the selling utility or generator. MPS would arrange for the exported energy to be wheeled from the selling entities, over existing domestic transmission facilities, and delivered to the foreign purchaser over one or more of the following international transmission lines for which Presidential permits (PP) have been previously issued: New York Power Authority's (NYPA) 230-kilovolt (kV), lines at Massena, New York (PP-25), and Devil's Hole, New York (PP-30); NYPA 765 kV line at Fort Covington, New York (PP-56); the NYPA 345-kV lines at Niagara Falls, New York (PP-74); Niagara Mohawk Power Corporation's (NIMO) 4.8-kV Hogansburg, New York line (PP-13); and NIMO's 13.2-kV line at Covington, New York, 230-kV(3 Phase) and 2-69-kV lines at Devil's Hole, New York, 38-kV Buffalo, New York lines, 69-kV lines at Queenstown, New York, and 12-kV(3/cables) Rainbow Br., New York lines (PP-31).

Any determination by the DOE to grant the request by MPS for export authorization will be conditioned to require MPS to comply with all reliability criteria, standards, and guidelines of the North American Electric Reliability Council and Regional Councils.

**PROCEDURAL MATTERS:** Any persons desiring to be heard or to protest this application should file a petition to intervene or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the rules of practice and procedure (18 CFR 385.211, 385.214). Fifteen copies of such petitions and protests should be filed with the DOE on or before the date listed above. Additional copies are to be filed directly with: Mr. Dennis Lawler, Vice President, MidCon Power Services Corp., 701 East 22nd Street, Lombard,

Illinois 60148 AND Mr. Peter Y. Connor, Esq., 801 15th Street, Wilmette, Illinois 60091.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969 (NEPA), and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above.

Issued in Washington, DC, on May 31, 1996.

Anthony J. Como.

*Director, Office of Coal & Electricity, Office of Fuels Programs, Office of Fossil Energy.*

#### Federal Energy Regulatory Commission

[Docket No. RP94-294-007]

##### Panhandle Eastern Pipe Line Company; Notice of Compliance Filing

May 30, 1996.

Take notice that on May 22, 1996, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed on Appendix A to its filing, to become effective on the dates shown on Appendix A. Panhandle asserts that the purpose of this filing is to comply with the Commission's order issued April 1, 1996 in Docket No. RP94-294-000.

Panhandle states that in accordance with the Commission's April 1, 1996 Order, it is reflecting the attribution methodology that was utilized to allocate revenues from its discounted firm and interruptible transportation contracts prior to the effective date of the Natural attribution policy. Accordingly, Panhandle is submitting revised tariff sheets to reflect Panhandle's prior attribution methodology from July 1, 1994, the date the tariffs sheets herein originally became effective, and the prospective application of the Natural attribution policy.

Panhandle states that a copy of this filing are being served on all affected customers, applicable state regulatory agencies, and parties to this proceeding.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC
