Notice of Public Meetings on Drinking Water Issues

Notice is hereby given that the Environmental Protection Agency (EPA) is holding a series of public meetings for purposes of informal information exchange on various issues related to the development of rules that address microbial contaminants and disinfectants/disinfection by-products in drinking water. Microbial contaminants and disinfectants/disinfection by-products were the subject of a negotiated rulemaking process which resulted in agreement to develop three rules—an Information Collection Rule (ICR), a Disinfectants and Disinfection By-Products (D/DBP) Rule, and an Enhanced Surface Water Treatment Rule (ESWTR). The negotiated rulemaking committee met from September 1992 through June 1993, with signature documents in the first half of 1994. Since then, EPA and drinking water utilities have worked principally on technical issues concerning the ICR, which was published in the Federal Register on May 14, 1996. At a one-day stakeholder meeting held by EPA on May 10, 1996, to review the status of the three rules generated by the negotiated rulemaking process attendees voiced interest in having a series of future information exchange meetings.

EPA currently has scheduled a two-day information exchange meeting on June 13 and 14, 1996, with discussions focusing on linkages between the ICR, health effects research, the ESWTR and the D/DBP Rule. The meeting agenda also includes updates on developmental and reproductive health effects research related to disinfection by-products and discussion of ICR data objectives and issues. The meeting will be preceded by a one-day technical meeting held on June 12 to discuss ICR protozoa monitoring issues in preparation for a summary discussion on June 13th.

EPA is inviting all interested members of the public to participate in these and subsequent information exchange meetings. Another two-day meeting is currently being planned for later in the year. Additional meetings are also planned.

The June meetings will be held in Washington, D.C., at the office of the Center for Environmental Dispute Resolution (RESOLVE). A limited number of phone lines will also be available to enable attendance by teleconference. Because there are limitations on conference room seating and the number of phone lines,

members of the public who are interested in attending on any of the three days are requested to contact Elizabeth Corr of EPA's Office of Ground Water and Drinking Water at (202) 260-8907 prior to the day of the meeting. Members of the public who wish to be notified of future meetings should also contact Elizabeth Corr.

Dated: June 5, 1996.

Cynthia C. Dougherty,

Director, Office of Ground Water and Drinking Water.

2. Risk Reduction Options Subcommittee of the Integrated Risk Project

The Risk Reduction Options Subcommittee (RROS) of the Science Advisory Board's (SAB) Integrated Risk Project will meet Wednesday and Thursday, June 26–27, 1996. The meeting will be held in the EPA Institute for Learning at EPA's Waterside Mall Complex, 401 M Street, SW, Washington, DC. The Institute is located in the northwest corner of the mall. On the 26th, the Subcommittee will meet in the Muir Room and on the 27th in the Carrson Room. On both days the meeting will begin at 8:30 am and end by 6:30 pm.

Purpose of the Meeting—The main purpose of the meeting is to discuss risk reduction options for environmental problems. The Subcommittee's activities are part of an SAB project to update the 1990 SAB report, Reducing Risk: Setting Priorities and Strategies for Environmental Protection. In a letter dated October 25, 1995, to Dr. Matanoski, Chair of the SAB Executive Committee, Deputy Administrator Fred Hansen charged the SAB to: (a) Develop an updated ranking of the relative risk of different environmental problems based upon explicit scientific criteria; (b) provide an assessment of techniques and criteria that could be used to discriminate among emerging environmental risks and identify those that merit serious, near-term Agency

attention; (c) assess the potential for risk reduction and propose alternative technical risk reduction strategies for the environmental problems identified; and (d) identify the uncertainties and data quality issues associated with the relative rankings. The project will be conducted by several SAB panels, including RROS, working at the direction of an ad hoc Steering Committee established by the SAB's Executive Committee.

Availability of Review Materials—Single copies of Reducing Risk can be obtained by contacting the SAB's Committee Evaluation and Support Staff (CESS) (1400), 401 M Street, SW, Washington, DC 20460, telephone (202) 260–8414, or fax (202) 260–1889.

For Further Information—Agendas and rosters can be obtained from the Subcommittee Secretary, Mrs. Dorothy Clark, Tel. (202) 260–6552, Fax (202) 260–7118, or via the internet at: clark.dorothy@epamail.epa.gov. Members of the public desiring additional information about the meeting should contact Mrs. Kathleen Conway, Designated Federal Official, Environmental Engineering Committee, Science Advisory Board (1400F), U.S. EPA, 401 M Street, SW, Washington, DC 20460; telephone/voice mail at (202) 260–2558; fax at (202) 260–7118; or via the internet at: conway.kathleen@epamail.epa.gov.

Public comments will be limited to five minutes per speaker or organization. The request should identify the name of the individual who will make the presentation, the organization (if any) they will represent, any requirements for audio visual equipment (e.g., overhead projector, 35mm projector, chalkboard, etc.), and at least 35 copies of an outline of the issues to be addressed or the presentation itself.

3. Integrated Human Exposure Committee

The Integrated Human Exposure Committee (IHEC) (formerly called the Indoor Air Quality and Total Human Exposure Committee (IAQC)) of the Science Advisory Board (SAB) will meet on June 27–28, 1996 at the Holiday Inn Georgetown, 2101 Wisconsin Avenue NW, Washington D.C. 20007. The hotel telephone number is (202) 338–4600. The meeting will start at 9:00 am and end no later than 5:00 pm each day.

Purpose of the Meeting—The main purpose of the meeting is to discuss and review the Cumulative Exposure Study, an on-going Agency effort within the Office of Policy, Planning, and Evaluation (OPPE) intended to increase the level of understanding of total chronic human exposure to various toxic agents in the environment, including geographic and demographic variations in exposure levels. The Committee will address the overall scientific underpinnings of the study's initial findings, its planned approaches for future work, and several specific issues, including: (a) Proposed methods for modeling ambient concentrations of air toxics; (b) use of a proposed toxics emissions inventory for developing representative long-term concentrations of air toxics by census tract; (c) dispersion modeling techniques for developing representative, geographically differentiated long-term concentrations of air toxics; (d) methods proposed for evaluating the performance of the dispersion model; (e) proposed methodology for estimating food and drinking water ingestion exposures, including dealing with uncertainty and quantitation issues; (f) the proposed methods for aggregating pollutants for comparative analysis across subpopulations and communities; (g) methods for addressing indoor pollutant concentrations; and (h) methods for combining the inhalation, food ingestion and drinking water ingestion exposures estimated in this project to derive multi-pathway cumulative exposures. In addition, staff from EPA's Office of Air Quality Planning and Standards and the Office of Pollution Prevention and Toxics will brief the Committee on related activities in their program areas.

For Further Information—Single copies of the review materials for the Cumulative Exposure Study can be obtained by contacting Ms. Constance Williams, US EPA, Mail Code 2126, 401 M Street, SW, Washington, DC 20460, telephone (202) 260–5490, fax (202) 260–0512, or via the Internet at: williams.constance@epamail.epa.gov.
