14 CFR Part 71

[Airspace Docket No. 95-ASW-31]

Revision of Class E Airspace; Las Vegas, NM

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises the Class E airspace extending upward from 700 feet above ground level (AGL) at Las Vegas, NM. The development of a Global Positioning System (GPS) standard instrument approach procedure (SIAP) to Runway (RWY) 02 at Las Vegas Municipal Airport has made this action necessary. This action is intended to provide adequate Class E

airspace to contain instrument flight rule (IFR) operations for aircraft executing the GPS SIAP to RWY 02 at Las Vegas Municipal Airport, Las Vegas, NM.

EFFECTIVE DATE: 0901 UTC, August 15, 1996.

FOR FURTHER INFORMATION CONTACT: Donald J. Day, Operations Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Fort Worth, TX 76193-0530, telephone 817-222-5593.

SUPPLEMENTARY INFORMATION:

History

On January 31, 1996, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace at Las Vegas, NM, was published in the Federal Register (61 FR 3349). A GPS SIAP to RWY 02 developed for Las Vegas Municipal Airport, Las Vegas, NM, requires the revision of Class E airspace at this airport. The proposal was to establish controlled airspace extending upward from 700 feet AGL to contain IFR operations in controlled airspace during portions of the terminal operation and while transitioning between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American

Datum 83. Class E airspace designations for airspace areas extending upward from 700 feet or more AGL are published in Paragraph 6005 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) revises the Class E airspace located at Las Vegas, NM, to provide controlled airspace extending upward from 700 feet AGL for aircraft executing the GPS SIAP to RWY 02 at Las Vegas Municipal Airport.

The FAA has determined that this regulation only involves an established body of technical regulations that need frequent and routine amendments to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

SUPPLEMENTARY INFORMATION:

History

On February 6, 1996, the FAA proposed to amend Title 14 of the Code of Regulations part 71 (14 CFR part 71) to establish a Colored Federal Airway, B–9, in Florida (61 FR 04380). Interested parties were invited by the FAA to participate in this rulemaking effort by submitting written comments on the proposal. Except for editorial changes, this amendment is the same as proposed in the notice. Colored Federal airways are published in paragraph 6009(d) of FAA Order 7400.9C dated August 17, 1995, and 95–ASO–20 2 effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The Colored Federal airway listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 establishes a new Colored Federal Airway, B–9, from the DEEDS Intersection to the Marathon NDB, FL. This action will enhance the management of air traffic and accommodate the users of that airspace.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal.
