Tennessee states that it is filing the instant tariff sheets to allow Balancing Parties on Tennessee who are also interstate pipelines to enable their customers that have contracts with Tennessee for firm storage under Rate Schedule FS, to use that Tennessee firm storage for balancing purposes. Specifically, the tendered tariff sheets will enable customers that do not directly connect with Tennessee's system to use their FS storage for swing purposes similar to the manner by which Tennessee's directly connected customers currently can use Tennessee's Storage Swing Option for balancing purposes. Tennessee states that it is filing the revised tariff sheets so that it can test the proposed Downstream Storage Swing Option ("DSS Option"), using its downstream affiliate pipeline, East Tennessee Natural Gas Company (East Tennessee), and a group of East Tennessee customers that hold FS storage on Tennessee in a Pilot Program. After completion of the Pilot Program, Tennessee will move to place the sheets into effect on a systemwide basis or will propose modifications of those sheets based on actual operating experience.

Tennessee further states that East Tennessee is filing tariff sheets simultaneously herewith that will permit its designated customers to use their Tennessee storage for balancing purposes as part of the Pilot Program.
