ACTION: Notice; extension of test-market period.

SUMMARY: On June 12, 1995, the Agricultural Marketing Service (AMS) published a notice in the Federal Register (60 FR 30830) announcing a one-year test-market period for USDA grade identified raw ready-to-cook boneless-skinless poultry products without added ingredients, based on tentative grade standards. AMS is extending the test-market period beyond its scheduled end, June 12, 1996, until it makes a final determination about the tentative standards.

FOR FURTHER INFORMATION CONTACT: Rex A. Barnes, Acting Chief, Grading Branch, Poultry Division, 202-720-3271.

SUPPLEMENTARY INFORMATION: On June 12, 1995, the Agricultural Marketing Service (AMS) published a notice in the Federal Register (60 FR 30830) announcing a one-year test-market period for USDA grade identified raw

ready-to-cook boneless-skinless poultry products without added ingredients, based on tentative grade standards. The test-market period is scheduled to end June 12, 1996, after which AMS will evaluate the test results. If AMS decides to amend the current poultry grade standards, a proposal with comment period will be published in the Federal Register. To allow processors to continue grade identifying these products while the Agency evaluates test results, AMS has determined that it is appropriate to extend the test-market period until a final determination is made about the tentative grade standards.

SUPPLEMENTARY INFORMATION:

I. Abstract

Historically, recruiting enough qualified staff to complete decennial field activities within a short, specified time frame is the most difficult task the Census Bureau faces. This task is further complicated by the need to hire a culturally diverse workforce to meet broad census goals. We need an accurate applicant profile that provides summary information derived from the BC-1431 data to monitor recruiting efforts that will guide our strategies in recruiting applicants who are representative of the area being enumerated and who are also familiar with the dominant culture of the locality. The Census Bureau's goal is to recruit and hire workers who are the best qualified, who are indigenous to the area that is being enumerated, and are most familiar with the dominant cultures and languages of the area. The BC-1431 data are vital to controlling large-scale census and survey recruiting operations.

II. Method of Collection

We collect this information at the time of testing. Applicants are advised completion of this information is voluntary.

III. Data

OMB Number: 0607-0494.
Form Number: BC-1431.

The estimated annual cost to administer the BC-1431 is \$14,224.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have

practical utility; (b) the accuracy of the agency's estimate of burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
