SUPPLEMENTARY INFORMATION:

I. Abstract

Historically, recruiting enough qualified staff to complete decennial field activities within a short, specified time frame is the most difficult task the Census Bureau faces. This task is further complicated by the need to hire a culturally diverse workforce to meet broad census goals. We need an accurate applicant profile that provides summary information derived from the BC-1431 data to monitor recruiting efforts that will guide our strategies in recruiting applicants who are representative of the area being enumerated and who are also familiar with the dominant culture of the locality. The Census Bureau's goal is to recruit and hire workers who are the best qualified, who are indigenous to the area that is being enumerated, and are most familiar with the dominant cultures and languages of the area. The BC-1431 data are vital to controlling large-scale census and survey recruiting operations.

II. Method of Collection

We collect this information at the time of testing. Applicants are advised completion of this information is voluntary.

Market Development Cooperator Program

AGENCY: International Trade Administration (ITA), Commerce.

ACTION: Notice.

SUMMARY: The mission of ITA is to promote U.S. exports and to strengthen the international trade position of the United States. Building partnerships with the private sector enhances ITA's ability to fulfill its mission. To encourage such partnerships, ITA has created the Market Development Cooperator Program (MDCP) to develop, maintain and expand markets for nonagricultural goods and services produced in the United States.

The MDCP aims to:

- Challenge the private sector to think strategically about foreign markets;
- Be the catalyst that spurs private sector innovation and investment in export marketing; and
- Increase the number of American companies taking decisive export actions.

The advantage of a joint effort is that it permits the Government to pool expertise and funds with non-Federal sources so that each maximizes its market development resources. Partnerships of this sort also may provide a sharper focus on long-term export market development than do traditional trade promotion activities and serve as a mechanism for improving Government-industry relations.

While the Department of Commerce sponsors, guides and partially funds the MDCP with a matching requirement by the recipient, the Department of Commerce expects applicants to develop, initiate and carry out market development project activities. As an active partner, ITA will provide assistance identified by the applicant as being essential to the achievement of project goals and objectives. U.S. industry is best able to assess its problems and needs in the foreign marketplace and to recommend innovative solutions and programs that can be the formula to success in international trade.

Examples of activities that might be included in an applicant's project are

described below. No one of these activities or any combination of these activities must be included for a proposal to receive favorable consideration. The Department of Commerce encourages applicants to propose activities that (1) would be most appropriate to market development needs of their industry or industries; and (2) display the imagination and innovation of the applicant working in partnership with the Government to obtain the maximum market development impact.

A public meeting for parties considering applying for funding under the MDCP will be held on July 11, 1996. Attendance at this public meeting is not required of potential applicants. The purpose of the meeting is to provide general information regarding the MDCP procedures, selection process, and proposal preparation to potential applicants. No discussion of specific proposals will occur at this meeting.

DATES: The public meeting will be held July 11, 1996. Completed applications must be received no later than 5:00 p.m. Eastern Standard Time August 8, 1996. Competitive application kits will be available from the Department of Commerce starting June 13, 1996.

ADDRESSES: The public meeting will be held at the Herbert Clark Hoover Building, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. Contact the information contact for room location.

To obtain an application kit, please send a written request with a self-addressed mailing label to Mr. Greg O'Connor, Manager, Market Development Cooperator Program, Trade Development/OPCRM, Room 3211, U.S. Department of Commerce, Washington, D.C. 20230. Application kits may also be picked up in Room 3211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.
