SUPPLEMENTARY INFORMATION:

I. Abstract

Historically, recruiting enough qualified staff to complete decennial field activities within a short, specified time frame is the most difficult task the Census Bureau faces. This task is further complicated by the need to hire a culturally diverse workforce to meet broad census goals. We need an accurate applicant profile that provides summary information derived from the BC-1431 data to monitor recruiting efforts that will guide our strategies in recruiting applicants who are representative of the area being enumerated and who are also familiar with the dominant culture of the locality. The Census Bureau's goal is to recruit and hire workers who are the best qualified, who are indigenous to the area that is being enumerated, and are most familiar with the dominant cultures and languages of the area. The BC-1431 data are vital to controlling large-scale census and survey recruiting operations.

II. Method of Collection

We collect this information at the time of testing. Applicants are advised completion of this information is voluntary.
