

SUPPLEMENTARY INFORMATION:

History

On December 21, 1995, the FAA proposed to amend Title 14 of the Code of Federal Regulations part 71 (14 CFR part 71) to alter V-99, V-451, and J-62 (60 FR 66181). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Jet Routes and Domestic Very High Frequency Omnidirectional Range (VOR) Federal airways are published in paragraphs 2004 and 6010(a), respectively, of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The jet route and airways listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 alters V-99, V-451, and J-62. Specific portions of both the airways and the jet route are no longer necessary for navigation and are being revoked. The airspace designation for V-99 will be revoked between Hartford, CT, and the GRAYM intersection; V-451 will be revoked between Groton, CT, and the SEEDY intersection; and J-62 will be revoked east of the Nantucket, CT, VOR. Removing these obsolete segments will eliminate clutter on aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9C, Airspace Designations and Reporting Points, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

Paragraph 2004—Jet Routes

* * * * *

J-62 [Revised]

From Robbinsville, NJ; to Nantucket, MA.

* * * * *

Paragraph 6010(a)—Domestic VOR Federal Airways

* * * * *

V-99 [Revised]

From LaGuardia, NY, via INT LaGuardia 043° and Hartford, CT, 245° radials; Hartford.

* * * * *

V-451 [Revised]

From LaGuardia, NY; INT LaGuardia 063° and Hampton, NY, 289° radials; INT Hampton 289° and Calverton, NY, 044° radials; INT Calverton 044° and Groton, CT, 243° radials; Groton.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 93-AWP-4]

Alteration of Jet Routes J-86 and J-92

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule extends Jet Route 86 (J-86) from the Boulder City, NV, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) to the Beatty, NV, VORTAC. This action also realigns J-92 direct from the Boulder City VORTAC to the Beatty VORTAC. The FAA is taking this action

to enhance traffic flows and reduce controllers' workload.

EFFECTIVE DATE: 0901 UTC, August 15, 1996.

FOR FURTHER INFORMATION CONTACT:

Bill Nelson, Airspace and Rules Division ATA-400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

History

On June 9, 1993, the FAA proposed to amend Title 14 of the Code of Federal Regulations part 71 (14 CFR part 71) to alter J-86 and J-92 (58 FR 32313). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes, this amendment is the same as that proposed in the notice. Jet Routes are published in paragraph 2004 of FAA Order 7400.9C dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1. The jet routes listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 extends J-86 from the Boulder City, NV, VORTAC to the Beatty, NV, VORTAC. Extending J-86 will enable air traffic controllers to provide pilots with an alternate route from the Boulder City VORTAC to the Beatty VORTAC during the times Restricted Area 4808S is in use. This action also realigns J-92 direct from the Boulder City VORTAC to the Beatty VORTAC, providing a route that is normally requested by pilots. This action will enhance the traffic flow and reduce the controllers' workload.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities

under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9C, Airspace Designations and Reporting Points, dated August 17, 1995, and effective September 16, 1995, is amended as follows:

Paragraph 2004—Jet Routes

* * * * *

J-86 [Revised]

From Beatty, NV; INT Beatty 131° and Boulder City, NV, 284° radials; Boulder City; Peach Springs, AZ; Winslow, AZ; El Paso, TX; Fort Stockton, TX; Junction, TX; Austin, TX; Humble, TX; Leeville, LA; INT Leeville 104° and Sarasota, FL, 286° radials; Sarasota, INT Sarasota 103° and La Belle, FL, 313° radials; La Belle; to Miami, FL.

BILLING CODE 4910–13–M

FEDERAL TRADE COMMISSION

16 CFR Part 305

Rule Concerning Disclosures Regarding Energy Consumption and Water use of Certain Home Appliances and Other Products Required Under the Energy Policy and Conservation Act (“Appliance Labeling Rule”)

AGENCY: Federal Trade Commission.

ACTION: Final rule.

SUMMARY: The Federal Trade Commission amends its Appliance Labeling Rule by publishing new ranges of comparability to be used on required labels for clothes washers.

EFFECTIVE DATE: September 11, 1996.

FOR FURTHER INFORMATION CONTACT: James Mills, Attorney, Division of Enforcement, Federal Trade Commission, Washington, DC 20580 (202–326–3035).

SUPPLEMENTARY INFORMATION: Section 324 of the Energy Policy and Conservation Act of 1975 (“EPCA”) ¹ requires the Federal Trade Commission (“Commission”) to consider labeling rules for the disclosure of estimated annual energy cost or alternative energy consumption information for at least thirteen categories of appliances. Clothes washers are included in those categories. The statute also requires the Department of Energy (“DOE”) to develop test procedures that measure how much energy the appliances use. In addition, DOE is required to determine the representative average cost a consumer pays for the different types of energy available.

On November 19, 1979, the Commission issued a final rule covering seven of the thirteen appliance categories that were then covered by DOE test procedures: refrigerators and refrigerator-freezers, freezers, dishwashers, water heaters, clothes washers, room air conditioners and furnaces (this category includes boilers).² The Commission has extended the coverage of the Appliance Labeling Rule (“Rule”) four times since it originally issued the Rule: in 1987 (central air conditioners, heat pumps, and pulse combustion and condensing furnaces);³ 1989 (fluorescent lamp ballasts);⁴ 1993 (certain plumbing products⁵), and 1994 (certain lighting products⁶). On July 1, 1994, the Commission amended the Rule to make certain improvements, including making the label format more “user-friendly,” changing the energy usage descriptors required on labels, and adopting new product sub-categories for ranges of comparability purposes.⁷ In addition to the new format, which applies to labels for all products, the

changes for clothes washer labels are the requirement to disclose kilowatt-hour use per year (instead of estimated annual operating cost) for the primary energy usage disclosure and ranges of comparability, and the addition of the “front-loading” and “top-loading” sub-categories to the “standard” and “compact” categories.

Section 305.8(b) of the Rule requires manufacturers, after filing an initial report, to report annually by specified dates for each product type.⁸ These reports, which are to assist the Commission in preparing the ranges of comparability, contain the estimated annual energy consumption or energy efficiency ratings for the appliances derived from tests performed pursuant to the DOE test procedures. Because manufacturers regularly add new models to their lines, improve existing models, and drop others, the data base from which the ranges of comparability are calculated is constantly changing. To keep the required information consistent with these changes, under Section 305.10 of the Rule of Commission will publish new ranges (but not more often than annually) if an analysis of the new information indicates that the upper or lower limits of the ranges have changed by more than 15%. Otherwise, the Commission will publish a statement that the prior ranges remain in effect for the next year.

The annual submissions of data for clothes washers have been made and have been analyzed by the Commission. The Commission has found a significant number of the upper and lower limits of the ranges have changed by more than 15%. Accordingly, the Commission is publishing new ranges of comparability for the clothes washer category. These ranges will supersede the current ranges for clothes washers, which were published on May 25, 1995.⁹

In consideration of the foregoing, the Commission revises Appendix F of its Appliance Labeling Rule by publishing the following ranges of comparability for use in required disclosures (including labeling) for clothes washers manufactured on or after September 11, 1996. In addition, as of this effective date, the disclosures of estimated annual operating cost required at the bottom of the EnergyGuide for clothes washers must be based on the 1996 Representative Average Unit Costs of Energy for electricity (8.6 cents per kilowatt-hour) and natural gas (62.6 cents per therm) that were published by

¹ 42 U.S.C. 6294.
