

Building, Coastal Plain Experiment Station, Moore Highway, Trifton, GA 31794. Instrument: Ground Conductivity Meter, Model EM38. Manufacturer: Geonics Ltd., Canada. Intended Use: The instrument will be used for studies of subsurface discontinuities in soil properties. Application accepted by Commissioner of Customs: May 15, 1996.

Docket Number: 96-055. Applicant: The Pennsylvania State University, Department of Geosciences, 503 Deike Building, University Park, PA 16802. Instrument: Mass Spectrometer, Model MAT 252. Manufacturer: Finnigan MAT, Germany. Intended Use: The instrument will be used to analyze the isotopic composition of fossil air samples extracted from polar ice cores. The data from these experiments will provide the means of reconstructing the composition of the past atmosphere over the last 250,000 years. The objective of the proposed work will be to better understand the factors which influence the biogeochemical cycling of carbon, oxygen and nitrogen in the natural environment. In addition, the instrument will be used in several geoscience courses for demonstrating various techniques used during the acquisition of stable isotope ratios of various air samples. Application accepted by Commissioner of Customs: May 20, 1996.

Docket Number: 96-056. Applicant: Princeton University, PO Box 33, Princeton, NJ 08544-0033. Instrument: Electrical Capacitance Tomography Unit, Model PTL 300-TP-G. Manufacturer: Process Tomography, Ltd., United Kingdom. Intended Use: The instrument will be used to study the mechanics of flow of solid particles consisting of sand grains of about 100 microns in diameters or standard aluminosilicate particles of comparable dimensions suspended in a gas. Application accepted by Commissioner of Customs: May 23, 1996.

Docket Number: 96-057. Applicant: University of Iowa, Mass Spectrometry Facility, 71 Chemistry Building, Iowa City, IA 52242. Instrument: Magnetic Sector Mass Spectrometer, Model VG AutoSpec. Manufacturer: Micromass, Inc., United Kingdom. Intended Use: The instrument will be used primarily for structural studies of organic, organometallic, inorganic and biochemical compounds to determine molecular weight, elemental composition, and other details crucial to the characterization and structure determination of a wide variety of natural and synthetic chemical compounds encountered in research.

Application accepted by Commissioner of Customs: May 23, 1996.
Frank W. Creel,
Director, Statutory Import Programs Staff.

BILLING CODE 3510-DS-P

North American Free-Trade Agreement, Article 1904 NAFTA Panel Reviews; Notice of Completion of Panel Review

AGENCY: NAFTA Secretariat, United States Section, International Trade Administration, Department of Commerce.

ACTION: Notice of Completion of Panel Review.

SUMMARY: On April 26, 1996 the panel review of the final antidumping determination made by the Secretaria de Comercio y Fomento Industrial, in the antidumping investigation respecting Cold-Rolled Steel Sheet Originating in or Exported from Canada was completed. This matter was assigned Secretariat File No. MEX-96-1904-01.

FOR FURTHER INFORMATION CONTACT: James R. Holbein, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, D.C. 20230, (202) 482-5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules"). These Rules were published in the Federal Register on February 23, 1994 (59 FR 8686). The panel review in this matter was conducted in accordance with these Rules.

Background

On January 26, 1996 Dofasco, Inc. filed a First Request for Panel Review with the Mexican Section of the NAFTA

Secretariat pursuant to Article 1904 of the North American Free Trade Agreement. Panel review was requested of the final antidumping determination made by the Secretaria de Comercio y Fomento Industrial, in the antidumping investigation respecting Cold-Rolled Steel Sheet Originating in or Exported from Canada. This determination was published in the *Diario Oficial de la Federacion* on December 27, 1995. Pursuant to subrule 71(2) of the Rules, the panel review in this matter was completed on April 26, 1996.

Dated: May 17, 1996.
James R. Holbein,
United States Secretary, NAFTA Secretariat.

North American Free-Trade Agreement (NAFTA), Article 1904 Binational Panel Reviews

AGENCY: NAFTA Secretariat, United States Section, International Trade Administration, Department of Commerce.

ACTION: Notice of Binational Panel Decision.

SUMMARY: On May 6, 1996 the Binational Panel issued its decision in the review of the final Determination Not to Revoke Antidumping Duty Orders and Findings Not to Terminate Suspended Investigations made by the International Trade Administration respecting Color Picture Tubes from Canada, Secretariat File No. USA-95-1904-03. The Binational Panel affirmed the final determination. A copy of the complete Panel decision is available from the NAFTA Secretariat.

FOR FURTHER INFORMATION CONTACT: James R. Holbein, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, D.C. 20230, (202) 482-5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determination in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels.
