

Abstract: The FR 2248 collects balance sheet data on major categories of consumer and business credit receivables and on major short-term liabilities. For quarter-end months (March, June, September, and December), the report collects information on other assets and liabilities outstanding as well as information on capital accounts in order to provide a full balance sheet.

The Federal Reserve has reduced the authorized size of the FR 2248 reporting panel from 142 finance companies to 120 finance companies. The Federal Reserve has also reorganized the form by classifying assets as consumer-, real estate-, business-, or lease-related to make the form more compatible with respondents accounting procedures and thus reduce burden. No changes were made to the liabilities items. Several items were added to the supplemental section, and securitization items were reorganized to be consistent with the new asset classification.

2. *Report title:* Finance Company Survey
Agency form number: FR 3033s
OMB Control number: 7100-0277
Frequency: quinquennial
Reporters: Domestic finance companies
Annual reporting hours: 840
Estimated average hours per response: 1.4
Number of respondents: 600
 Small businesses are affected.

General description of report: This information collection is voluntary (12 U.S.C. §§225a, 263, and 353-359) and is given confidential treatment (5 U.S.C. §552(b)(4)).

Abstract: The FR 3033s survey, which is collected about every five years, asks for detailed information on the assets and liabilities of a stratified random sample of domestic finance companies. The sample is based on the responses to the first stage of the survey, the Finance Company Questionnaire (FR 3033p; OMB No. 7100-0277). From the questionnaires returned, the Federal Reserve determined which of the respondents were eligible for the FR 3033s panel.

The Federal Reserve uses the information collected in the survey to benchmark the data series constructed from the monthly report, the Domestic Finance Company Report of Consolidated Assets and Liabilities (FR 2248; OMB No. 7100-0005).

As with the FR 2248, the Federal Reserve reorganized the form by classifying assets as consumer-, real estate-, business-, or lease-related to make the form more compatible with

respondents accounting procedures and thus reduce burden. There was one minor consolidation to a liabilities item. Several items were added to the supplemental section, and securitization items were reorganized to be consistent with the new asset classification.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC); Announcement of Meeting

Name: Scientific and Technical Meeting on Occupational Exposure to Asphalt During Roofing Operations.

Times and Dates: 1 p.m.-5 p.m., July 22, 1996; 8:30 a.m.-5 p.m., July 23, 1996; 8:30 a.m.-12 noon, July 24, 1996.

Place: The Omni Netherland Plaza Hotel, Landmark Center Meeting Room, 5th and Race Streets, Cincinnati, Ohio 45202.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 250 people.

Purpose: NIOSH is planning to convene a meeting to discuss the scientific and technical issues relevant to the development of recommendations for controlling occupational exposures to asphalt during asphalt roofing operations.

NIOSH is convening a panel of individuals knowledgeable of the potential health effects and of current control technologies of asphalt exposure. The panel will be asked to prescribe the types of remedial action (e.g., engineering controls, exposure limit) that may be needed to protect workers' health. The goal of the meeting is to seek the widespread support of the participants in identifying and resolving issues relevant to reducing exposure to asphalt. However, NIOSH retains the responsibility for developing the conclusions and recommendations in the final document. The public is invited to attend and comment on the deliberations of this meeting.

Contact Persons for Additional Information: Technical information may
