NATIONAL ARCHIVES AND RECORDS ADMINISTRATION**Records Schedules; Availability and Request for Comments**

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 USC 3303a(a).

DATES: Request for copies must be received in writing on or before July 29, 1996. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are

updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

Phased Withdrawal From the Small Business Innovation Research (SBIR) Program in FY 1996

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice.

SUMMARY: The NRC has participated in the SBIR program since its inception in 1982. However, due to significant reductions in the NRC's FY 1996 budget, the extramural research and development (R&D) budget falls substantially below the \$100 million threshold for mandatory participation in the SBIR program. This current trend is expected to continue into future fiscal years. The NRC must focus its limited research funds on high priority work needed to support, confirm, or refine judgments used in regulatory decisions affecting public health and safety. Therefore, the NRC requested, in a letter to the U.S. Small Business Administration, Office of Technology dated September 19, 1995, approval for a phased withdrawal from the SBIR program in FY 1996 and beyond. SBA responded on April 16, 1996, that the NRC's phased withdrawal was approved. Should the NRC's extramural R&D budget increase above the \$100 million threshold in the coming years, the NRC would again participate in the SBIR program.

The phased withdrawal is being accomplished as follows: (1) A SBIR Phase I solicitation will not be issued in FY 1996 or future years while the NRC is below the mandatory threshold for participation in this program; (2) in FY 1996 the NRC will fund between one-third and one-half of the Phase II proposals resulting from its FY 1995 SBIR Phase I awards; and (3) the NRC is informing the small business community of this action through this Federal Register Notice and will issue letters to the small businesses on its SBIR mailing list.

FOR FURTHER INFORMATION CONTACT: Marianne Riggs on (301) 415-5822 or Deborah Neff on (301) 415-8160.

SUPPLEMENTARY INFORMATION: The NRC continues to support small business opportunities. For further information regarding the NRC small business program, you may contact the Office of Small Business and Civil Rights on (301) 415-7380.

Dated at Rockville, MD this 10th day of June 1996.
