**Transcontinental Gas Pipe Line Corporation; Notice of Refund Report**

June 12, 1996.

Take notice that on June 4, 1996, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing with the Commission an amendment of a refund report in accordance with Section 3 of Transco's Rate Schedule GSS.

Transco states that on May 13, 1996, it refunded \$290,545.53 to its LSS and GSS customers. The refund was due Transco's customers from a CNG Transmission Corporation refund in Docket Nos. RP94-96 and RP94-213 (consolidated) for the period July 1, 1994 through December 31, 1995. On May 29, 1996, Transco states that it paid interest of \$2,609.87 on the GSS portion of this refund. Therefore, the amended refund paid on May 29, 1996, is \$293,155.40.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests must be filed on or before June 18, 1996. Protests will be considered by the Commission in determining the appropriate action to be taken, but will

not serve to make the protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

**Paiute Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Paiute Expansion II Project**

June 12, 1996.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Paiute Pipeline Company (Paiute) in the above-referenced dockets.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the Paiute Expansion II Project facilities including:

- Construction of 19.6 miles of new pipeline;
- Relocation of the South Tahoe Pressure Limiting Station;
- Installation of pressure-regulating equipment at the California Check Meter; and
- Modification of the Wadsworth Junction Pressure Limiting Station.

The purpose of the proposed facilities would be to provide Southwest Gas Corporation (Southwest), a local distribution company operating in Nevada and California, with additional gas to expand service on the north shore of Lake Tahoe in California and provide new natural gas service to the Truckee, California, area.

The EA has been placed in the public files of the FERC and is available for public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, N.E., Room 2-A, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.
