

negotiations with television stations and by the public to ascertain why some stations are/are not carried by the cable systems.

OMB Number: 3060-0543.

Title: Section 21.913 Signal booster stations.

Form Number: None.

Type of Review: Revision of an existing collection.

Respondents: Business or other for-profit.

Number of Respondents: 600.

Estimated time per response: 2.5 hours per certification. This includes 0.5 hours for the licensee to convey its desire to install a low power booster station and 2 hours for a consulting engineer to prepare the certification.

Total annual burden: 300.

Annual Cost Per Respondent: \$250 per certification. This estimates the cost for the licensee consulting an engineer to prepare the certification.

Needs and Uses: On 6/9/93, OMB approved the Amendment of Parts 1, 2 and 21 of the Commission's Rules Governing Use of the Frequencies in the 2.1 and 2.5 GHz Bands. That approval contained various rule parts contained in Parts 21 and 74 of the Commission's Rules. Since that time, all rule sections incorporated into that approval have been reapproved under different OMB control numbers except Section 21.913. Section 21.913(g) permits an MDS or ITFS licensee to install and commence operation of low power signal booster stations without a formal application. Licensees seeking to install a low power signal booster station must, however, submit a certification demonstrating compliance with the various components of Sections 21.913(g). This certification must be submitted within 48 hours of installation of the booster station. The data are used by FCC staff to verify that the licensee has complied with guidelines to use the certification process and that the booster would not cause objectionable interference.

Public Information Collections Approved by Office of Management and Budget

June 12, 1996.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the

Paperwork Reduction Act of 1995, Pub. L. 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0536.

Expiration Date: 06/30/99.

Title: Rules and Requirements for Telecommunications Relay Services (TRS) Interstate Cost Recovery.

Form No.: FCC Form 431.

Estimated Annual Burden: 15,593 total annual hours; 3.1 hours per respondent (avg.); 5000 respondents.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Description: Title IV of the Americans with Disabilities Act, Pub. L. No. 101-336, Section 401, 104 Stat. 327, 366-69 requires the Federal Communications Commission (Commission) to ensure that telecommunications relay services are available to persons with hearing and speech disabilities in the United States. Among other things, the Commission is required by 47 U.S.C. Section 225(d)(3) to enact and oversee a shared-funding mechanism (TRS Fund) for recovering the costs of providing interstate TRS. The Commission's rules require all carriers providing interstate telecommunications services to contribute to the TRS Fund on an annual basis. Contributions are the product of the carrier's gross interstate revenues for the previous year and a contribution factor determined annually by the Commission. The collected contributions are used to compensate TRS providers for the costs of providing interstate TRS service. FCC Form 431 is the form which carriers use to calculate and file their annual TRS Fund contributions. FCC Form 431 is being updated to include the new expiration date.

OMB Control No.: 3060-0392.

Expiration Date: 05/31/99.

Title: Pole Attachment Complaint Procedures (Sections 1.1401-1.1415).

Estimated Annual Burden: 42 total annual hours; 3 hours per respondent (avg.); 14 respondents.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Description: Congress mandated pursuant to 47 U.S.C. Section 224 that the FCC ensures that the rates, terms and conditions under which cable television operators attach their hardware to utility poles are just and reasonable. Section 224 also mandates establishment of an appropriate

mechanism to hear and resolve complaints concerning the rates, terms and conditions for pole attachments. Section 1.1401-1.1415 contained in Subpart J of part 1 were promulgated to implement Section 224. See 47 CFR Sections 1.1401-1.1415. The information is submitted primarily by cable television operators in regards to complaints concerning the rates, terms and conditions for pole attachments. The information will be used to either determine the merits of the complaint including calculating the maximum rate under the Commission's formula. The respondents affected are cable television operators and utility companies.

BILLING CODE 6712-01-F

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Submission for OMB Review; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) is submitting a request for review and approval of an information collection in accordance with the emergency processing procedures under OMB regulation 5 CFR 1320.13. FEMA is requesting this information collection be approved for use through September 1996. OMB clearance and approval is requested by June 14, 1996.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Reform Act of 1994 (NFIRA), signed into law by the President in September 1994, established the Flood Insurance Interagency Task Force to carry out certain specific duties. One major duty is to determine the reasonableness of fees charged pursuant to section 102(h) of the Flood Disaster Protection Act of 1973, for costs of determining whether the property securing a loan is located in an area having special flood hazards; and whether the fees charged pursuant to such section by lenders and servicers are greater than the amounts paid by such lenders and servicers to persons actually conducting such determinations, and the extent to which the fees exceed such amounts.
