

The principal alternative would be to deny the requested amendment. This would not reduce environmental impacts of plant operation and would result in reduced operational flexibility.

POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service.

ACTION: Notice of modifications to an existing system of records.

SUMMARY: This document publishes notice of modifications to Privacy Act System of Records USPS 120.070, Personnel Records-General Personnel Folder (Official Personnel Folders and Records Related Thereto). The proposed modifications expand the categories of records covered by the system, add a system manager, and enhance the system description, especially with regard to procedures for filing and retaining records.

DATES: Any interested party may submit written comments on the proposed modifications. This proposal will become effective without further notice on July 30, 1996, unless comments received on or before that date result in a contrary determination.

ADDRESSES: Written comments on this proposal should be mailed or delivered to Payroll Accounting and Records, United States Postal Service, 475 L'Enfant Plaza SW, Room 8650, Washington, DC 20260-5243. Copies of all written comments will be available at the above address for public inspection and photocopying between 8 a.m. and 4:45 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Betty E. Sheriff, (202) 268-2608.

SUPPLEMENTARY INFORMATION: Privacy Act System of Records USPS 120.070, Personnel Records-General Personnel Folder (Official Personnel Folders and Records Related Thereto) collects information contained within employees' official personnel folders and related information. Such information consists of documents that reflect an employee's status, salary, benefits, service, and career history.

This notice enhances the categories of records in the system by including further examples of records historically covered by the system. It expands the categories to the extent that reference copies of discipline or adverse action records are kept for a period beyond the copy historically kept within the official personnel folder. Such maintenance is also reflected in a revision to the retention and disposal segment of the system notice. Because these records are kept within Labor Relations offices, the Vice President, Labor Relations has been added as a System Manager.

All records within this system continue to be kept in a secured environment. The system modifications do not alter the character of information contained in the system or the safeguards applied in the maintenance of that information.

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed system has been sent to Congress and to the Office of Management and Budget for their evaluation.

USPS Privacy Act system 120.070 was last published in its entirety in the Federal Register on June 19, 1991 (56 FR 28181) and amended on December 4, 1992 (57 FR 57515) and on November 24, 1993 (58 FR 62171). The Postal Service proposes amending that system as shown below.
