

agreements on file with the Commission as Natural's Rate Schedules X-56, X-83, and X-111 and authorized by the Commission in Docket Nos. CP75-183, CP77-190 and CP79-204, as amended, respectively. It is stated that under Rate Schedule X-56 Natural was receiving from CIG up to 10,000 Mcf of gas per day on a firm basis (plus additional volumes on a best efforts basis, if available) from CIG's reserves in Lea County, New Mexico, and delivering equivalent volumes to CIG at interconnections in Texas and Oklahoma. It is further stated that Natural had the option to purchase 25 percent of the volumes from CIG. It is stated that under Rate Schedule X-83 CIG was receiving up to 2,000 Mcf of gas per day from Natural and delivering equivalent volumes to Natural at interconnections in Beaver County, Oklahoma. It is stated that under Rate Schedule X-111 CIG and Natural were transporting and exchanging gas on a system-wide basis. It is asserted that CIG and Natural have recently reached agreement resulting in the resolution of imbalances. Natural states that it will cancel the 3 rate schedules on receipt of abandonment authorization. Natural explains that no facilities will be abandoned, and no customers will lose service as a result of the proposed abandonments.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 8, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the

certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Natural to appear or be represented at the hearing.

Lois D. Cashell,

*Secretary.*

BILLING CODE 6717-01-M

**[Docket No. CP96-562-000]**

**NorAm Gas Transmission Company;  
Notice of Application**

June 17, 1996.

Take notice that on June 10, 1996, NorAm Gas Transmission Company (NGT), P.O. Box 21734, Shreveport, Louisiana 71151, filed an application with the Commission in Docket No. CP96-562-000 pursuant to Sections 7(b) and 7(c) of the National Gas Act (NGA) for permission and approval to abandon and move compression facilities and appurtenances thereto, located in Yell County, Arkansas, and the authority to construct and operate a new mainline compressor station in Conway County, Arkansas, all as more fully set forth in the application which is open to the public for inspection.

NGT proposes to abandon the Chambers Compressor Station which consists of one 4,000 H.P. engine located on NGT's Line BT-1 in Yell County and to reclaim the compressor and associated equipment which would then be used in the construction of a new 4,000 H.P. compressor station (the Round Mountain Compressor Station), to be located on NGT's Line J in Conway County. NGT estimates that it would cost \$2,377,252 to abandon and remove the Chambers Compressor Station and to construct and operate the Round Mountain Compressor Station. NorAm states that no service to any of its existing customers would be affected by this proposal.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 8, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will

be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the NGA and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for NGT to appear or be represented at the hearing.

Lois D. Cashell,

*Secretary.*
