Title: Lower Colorado River Well Inventory.

OMB No.: OMB No. 1006-0014.
Expiration Date of Approval: January 31, 1997.

Type of Request: Extension of a currently approved information collection.

Abstract: Reclamation desires to inventory wells along the lower Colorado River to ensure that all Colorado River water use conforms to applicable laws and regulations and is accurately accounted for. This will affect every well owner and operator along the lower Colorado River in Arizona, California, and Nevada.

Reclamation will use the information collected to presume if a well is pumping Colorado River water or tributary water, determine the type of water use and estimate its quantity, and assure that these water uses are in accordance with an entitlement to the

extent possible under the compacts, Federal laws, court decisions and decrees, contracts, and regulatory guidelines that govern the use of Colorado River water.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of Reclamation, including whether the information shall have practical utility; (b) the accuracy of Reclamation's estimated burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Estimate of Burden: An average of 30 minutes is required for Reclamation, or those cooperating or under contract or agreement with Reclamation, to interview individual well owners or operators.

Respondents: Owners and/or operators of wells along, and in areas adjacent and hydraulically connected to, the lower Colorado River.

Estimated Number of Respondents: 1,000.

Estimated Number of Responses per Respondent: This information will be collected only once for each well owner or operator as long as changes in water use, or other changes that would impact entitlement or administrative requirements, are not made.

Estimated Total Annual Burden on Respondents: 500 hours.

Dated: June 14, 1996.
