

Northwest states that this proposal will allow the meter station to maintain the ability to accommodate existing firm Maximum Daily Delivery Obligations (MDDO) at this delivery point to Cascade Natural Gas Corporation. Northwest proposes to modify the meter station by removing the two existing obsolete 1-inch regulators and the existing obsolete 2-inch positive displacement meter and appurtenances, installing two new 1-inch regulators and a new 3-inch turbine meter and appurtenances as replacements, and converting the existing 3-inch orifice meter for operation solely as a backup to the new turbine meter. Northwest states that as a result of these modifications, the meter station's maximum design capacity will decrease from 2,300 Dth per day to 1,837 Dth per day at 150 psig. The total cost of the proposed facility replacements is \$116,360. The meter station is located in Section 6, Township 5 North, Range 36 East, Umatilla County, Oregon, at Milepost 22.55 on Northwest's Walla Lateral.

Northwest states that the proposed facility modifications is not prohibited by its existing tariff, that it has sufficient capacity to accomplish deliveries without detriment or disadvantage to other customers, that its peak day and annual deliveries will not be impacted and that the total volumes delivered will be within the authorized entitlements.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
