Department of the Army

Environmental Assessment and Finding of No Significant Impact for the Relocation of the 1111th Signal Battalion, the 1108th Signal Brigade and a Portion of the Information Systems Engineering Command-CONUS From Fort Ritchie, Maryland, to Fort Detrick, Maryland

AGENCY: Department of the Army, DoD.

ACTION: Notice availability.

SUMMARY: In accordance with Public Law 101-510, the Defense Base Closure and Realignment Act of 1990, the Defense Base Closure and Realignment Commission recommended the relocation of the 1111th Signal Battalion, the 1108th Signal Brigade and a portion of the Information Systems Engineering Command-CONUS from Fort Ritchie, Maryland, to Fort Detrick, Maryland. The Army will also relocate the Technical Applications Office and associated Base Operations support personnel to Fort Detrick, Maryland, pursuant to this recommendation.

The Environmental Assessment (EA) evaluates the environmental impacts associated with the transfer of approximately 1,147 personnel and the renovation and construction projects required to accommodate these transferring personnel. Of these positions, approximately 636 military will be attached to Fort Detrick for quarters, rations, and UCMJ purposes only. These 636 military and 158 civilian personnel will continue to work at the Alternate National Military Command Center, control of which will be transferred from the Military District of Washington to the Medical Command as a result of this action. The remaining personnel will be attached to Fort Detrick for all purposes.

No significant project environmental impacts were identified. Potential for only minor or insignificant impacts in anticipated in the areas of noise, water quality, stormwater, geology, soils, traffic, asbestos and radon management, visual and aesthetic values, on-post housing, and shops and services. Minor impacts from the construction of new facilities and the renovation of existing buildings are not expected to be significant with the implementation of Best Management Practices, other required procedures, surveys and studies. Potential asbestos or random impacts will be mitigated by conducting the proper testing and taking action as necessary. Traffic impacts are not expected to be significant, and any
