Register is publishing the list of these agreements on behalf of the American Institute in Taiwan in the public interest.

SUPPLEMENTARY INFORMATION: Cultural, commercial and other unofficial relations between the American people and the people on Taiwan are maintained on a nongovernmental basis through the American Institute in Taiwan (AIT), a private nonprofit corporation created under the Taiwan Relations Act (Pub. L. 96–8; 93 Stat. 14). The Coordination Council for North American Affairs (CCNAA) was established as its nongovernmental Taiwan counterpart. On October 10, 1994, the Coordination Council for North American Affairs was renamed the Taipei Economic and Cultural Representative Office in the United States (TECRO). Under section 1(a) of the Act, agreements concluded between the AIT and the TECRO (CCNAA) are transmitted to the Congress, and according to sections 6 and 10(a) of the Act, such agreements have full force and effect under the law of the United States.

The texts of the agreements are available from the American Institute in Taiwan, 1700 North Moore Street, 17th Floor, Arlington, Virginia 22209. For further information contact the Corporate Secretary of AIT at this address, telephone: (703)525–8474, fax: (703)841–1385.

Following is a list of agreements between AIT and TECRO (CCNAA) which were in force as of January 1, 1996.

Dated: June 14, 1996.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: Revision.

3. The form number if applicable: Not applicable.

4. How often the collection is required: On occasion. Required reports are collected and evaluated on a continuing basis as events occur.

5. Who will be required or asked to report: Persons who possess, use, import, export, transport, or deliver to a carrier for transport, special nuclear material.

7. The estimated number of annual respondents: 76.

8. An estimate of the total number of hours needed annually to complete the requirement or request: 272 hours (an average of 8 hours per response).

9. An indication of whether Section 3507(d), Pub. L. 104–13 applies: Not applicable.

10. Abstract: Generic Letter 91–02 encourages voluntary reporting (by both waste form generators and processors) of information concerning mishaps to low-level radioactive waste (LLW) forms prepared for disposal. The information is used by NRC to determine whether follow up action is necessary to assure protection of public health and safety. Submit, by August 30, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
