[Airspace Docket No. 96-AAL-11]

Proposed Establishment of Class E Airspace; Wainwright, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This action establishes Class E airspace at Wainwright, AK. The development of a Global Positioning System (GPS) instrument approach to RWY 4 and RWY 22 has made this action necessary. This action will change the airport status from Visual Flight Rules (VFR) to Instrument Flight Rules (IFR). The area would be depicted on aeronautical charts for pilot reference. The intended effect of this proposal is to provide adequate controlled airspace for IFR operations at Wainwright, AK.

DATES: Comments must be received on or before August 23, 1996.

ADDRESSES: Send comments on the proposal in triplicate to:

Manager, System Management Branch, AAL-530, Docket No. 96-AAL-11, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E airspace at Wainwright, AK, due to the creation of GPS approaches to RWY 4 and RWY 22. The status of Wainwright Airport will change from VFR to IFR. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9C, dated August 17, 1995, and effective September 16, 1995, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document would be published subsequently in the Order. The FAA has determined that these proposed regulations only involve an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
