

MHz licenses that were filed as early as January 1995 were still pending on February 8, 1996. The Bureau recently completed its computer run of 931 MHz applications filed between January 1 and September 30, 1995. The results of the run identified about 2,500 applications that were not mutually exclusive and are to be granted, if the applications are otherwise complete, eliminating most of the remaining application backlog. The Commission believes that the recipients of these license grants should be allowed to expand their systems based on these sites, as long as the licensed sites are operational at the time the expansion applications are filed. Therefore, the Commission will allow incumbents to expand 65 kilometers (40 miles) from sites for which applications were filed as of September 30, 1995, whether or not such applications were granted prior to February 8, 1996. This change to the Commission's interim measures will benefit applicants most affected by delays prior to adoption of the *NPRM*.

IV. Procedural Matters and Ordering Clauses

A. Regulatory Flexibility Act

As required by Section 604 of the Regulatory Flexibility Act, the Commission has prepared a Final Regulatory Flexibility Analysis of the expected impact on small entities of the modification of the interim rules set forth in this *Order on Reconsideration*.

Statement of the Need for and Objectives of Interim Rules: In this *Order on Reconsideration*, the Commission is modifying the interim measures, specifically, the interim freeze on new paging applications imposed in the *Notice of Proposed Rulemaking*, to permit incumbent paging licensees to apply for additional licenses to add transmission sites to existing paging systems on the same channel as the existing systems, provided that the additional transmission site is within 65 kilometers (40 miles) from an operating transmission site in the applicant's system. This modification of the interim rule will allow paging companies additional flexibility to expand their systems during the interim period.

Summary of Significant Issues Raised by Comments to the Initial Regulatory Flexibility Analysis (IRFA): There were no comments to the IRFA regarding the interim rules.

All significant alternatives are discussed in the *Order on Reconsideration*.

B. Ordering Clauses

It is ordered that, pursuant to the authority of Sections 4(i), 303(r), 309(c), 309(j), and 332 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(r), 309(c), 309(j), and 332, and effective upon publication of this *Order on Reconsideration* in the Federal Register, the interim rules set forth in the *First Report and Order* in this docket are modified as set forth herein.

Federal-State Joint Board on Universal Service

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This *Report and Order* extends the duration of the indexed interim cap ("interim cap") on the rate of growth of the Universal Service Fund ("USF"), amending the Commission's rules regarding jurisdictional separations. This action will moderate the growth of the USF while the Federal-State Joint Board on Universal Service and the Commission consider changes to the universal service rules. The interim cap is extended in order to facilitate the transition to any new universal service rules that are adopted consistent with the mandates of the Telecommunications Act of 1996.

EFFECTIVE DATE: July 1, 1996.

FOR FURTHER INFORMATION CONTACT: Pam Szymczak, Accounting and Audits Division, Common Carrier Bureau at (202) 418-0389.

SUPPLEMENTARY INFORMATION: This *Report and Order* adopts the *Recommended Decision* of the Federal-State Joint Board on Universal Service, FCC 96J-1 (released June 19, 1996) and extends the interim cap on the growth of the Universal Service Fund. The *Report and Order* extends the interim cap until the Commission's final rules on universal service, to be adopted on or before May 8, 1997, become effective.

The Federal-State Joint Board recommended, and the Commission concurs in the *Report and Order*, that extending the duration of the cap will facilitate a transition to any new universal service rules that may be implemented pursuant to the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996). For all the reasons stated in the *Report and Order*, the Commission finds good cause for making the rule amendments effective on less than 30 days notice. The *Notice of Proposed Rulemaking* initiating this proceeding was released March 8, 1996 (FCC 96-93).

Fisheries of the Exclusive Economic Zone off Alaska; Northern Rockfish in the Western Regulatory Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification of a closure.

SUMMARY: NMFS is opening directed fishing for northern rockfish in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to use the total allowable catch (TAC) for northern rockfish in this area.

EFFECTIVE DATE: 1200 hrs, Alaska local time (A.l.t.), July 1, 1996, until 2400 hrs, A.l.t., December 31, 1996.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the GOA exclusive economic zone is managed by NMFS according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at Subpart H of 50 CFR part 600 and 50 CFR part 679.

The annual TAC for northern rockfish in the Western Regulatory Area was established by the Final 1996 Harvest Specifications of Groundfish (61 FR 4304, February 5, 1996) as 640 metric tons (mt). See § 679.20(c)(3)(ii). The Final 1996 Harvest Specifications of Groundfish also closed the directed fishery for northern rockfish in the Western Regulatory Area of the GOA. See 679.20(d)(1).

The Director, Alaska Region, NMFS, has determined that the 1996 TAC for northern rockfish in the Western Regulatory Area has not been reached. Therefore, NMFS is terminating the previous closure and is opening directed fishing for northern rockfish in the Western Regulatory Area of the Gulf of Alaska.

All other closures remain in full force and effect.
