*Explanation of the Weight Given to a Treating Source's Medical Opinion*

Paragraph (d)(2) of 20 CFR 404.1527 and 416.927 requires that the adjudicator will always give good reasons in the notice of the determination or decision for the weight given to a treating source's medical opinion(s), i.e., an opinion(s) on the nature and severity of an individual's impairment(s). Therefore:

- When the determination or decision:
  - Is not fully favorable, e.g., is a denial; or
  - is fully favorable based in part on a treating source's medical opinion, e.g., when the adjudicator adopts a treating source's opinion about the individual's remaining ability to function;

the notice of the determination or decision must contain specific reasons for the weight given to the treating source's medical opinion, supported by the evidence in the case record, and must be sufficiently specific to make clear to any subsequent reviewers the weight the adjudicator gave to the treating source's medical opinion and the reasons for that weight.

- When the determination or decision is fully favorable and would be even without consideration of a treating source's medical opinion, the notice of the determination or decision must contain an explanation of the weight given to the treating source's medical opinion. This explanation may be brief.
