

operator should be given Datagram Identification Number N1023 and the following message addressed to William H. Bateman, Director, Project Directorate IV-2: petitioner's name and telephone number, date petition was mailed, plant name, and publication date and page number of this Federal Register notice. A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to T. E. Oubre, Esquire, Southern California Edison Company, P. O. Box 800, Rosemead, California 91770, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated June 3, 1996, as superseded by application dated June 25, 1996, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Main Library, University of California, P. O. Box 19557, Irvine, California 92713.

Dated at Rockville, Maryland, this 26th day of June 1996.

For the Nuclear Regulatory Commission.
Mel B. Fields,
*Project Manager, Project Directorate IV-2,
Division of Reactor Projects III/IV, Office of
Nuclear Reactor Regulation.*

BILLING CODE 7590-01-M

[Docket Nos. 50-528, 50-529 and 50-530]

Arizona Public Service Company; Palo Verde Nuclear Generating Station, Unit Nos. 1, 2, and 3; Issuance of Director's Decision Under 10 CFR § 2.206

Notice is hereby given that the Director, Office of Nuclear Reactor Regulation, has acted on a Petition for

action under 10 CFR § 2.206 received from Mr. Thomas J. Saporito, Jr., on behalf of Florida Energy Consultants, Inc., dated May 27, 1994, as supplemented on July 8, 1994, for the Palo Verde Nuclear Generating Station, Unit Nos. 1, 2, and 3.

In a letter dated May 27, 1994, the Petitioner requested that the NRC (1) institute a show-cause proceeding pursuant to 10 CFR § 2.202 to modify, suspend, or revoke the operating licenses for Palo Verde; (2) issue a notice of violation against the licensee for continuing to employ The Atlantic Group (TAG) as a labor contractor at Palo Verde; (3) investigate alleged material false statements made by William F. Conway, Executive Vice President at Palo Verde, during his testimony at a Department of Labor hearing (ERA Case No. 92-ERA-030) and, in the interim, require that he be relieved of any authority over operations at Palo Verde; (4) investigate the licensee's statements in a letter of August 10, 1993, from Mr. Conway to the former NRC regional administrator, Mr. Bobby H. Faulkenberry, that Mr. Saporito gave materially false, inaccurate, and incomplete information on his application for unescorted access to Palo Verde and that, as a result, he lacks trustworthiness and reliability for access to Palo Verde; (5) investigate the circumstances surrounding the February 1994 termination of licensee employee Joseph Straub, a former radiation protection technician at Palo Verde, to determine if his employment was illegally terminated by the licensee because he engaged in "protected activity" during the course of his employment; (6) require the licensee to respond to a "chilling effect" letter regarding the circumstances surrounding Mr. Straub's termination from Palo Verde and to specify whether any measures were taken to ensure that his termination did not have a chilling effect at Palo Verde; and (7) initiate appropriate actions to require the licensee to immediately conduct eddy current testing on all steam generators at Palo Verde because the steam generator tubes were recently found to be subject to cracking.

In a letter dated July 8, 1994, the Petitioner raised six additional issues. This supplemental Petition asked the NRC to (1) institute a show-cause proceeding pursuant to 10 CFR § 2.202 for the modification, suspension, or revocation of the Palo Verde operating licenses for Units 1, 2, and 3; (2) modify the Palo Verde operating licenses to require operation at 86-percent power or less; (3) require the licensee to submit a No Significant Hazards safety analysis
