**[Project No. 10934-003; New Hampshire]**

**William B. Ruger, Jr.; Notice of Availability of Final Environmental Assessment**

June 27, 1996.

A final environmental assessment (FEA) is available for public review. The FEA reviewed the application for amendment for the Sugar River II Project (FERC No. 10934). The

application proposes to shorten the bypass reach of the Sugar River by 650 feet by relocating the proposed dam in a downstream direction and replacing an open canal with a seven-foot-diameter buried steel penstock. The FEA finds that approval of the amendment application would not constitute a major federal action significantly affecting the quality of the human environment. The Sugar River II Project is located on the Sugar River, in Sullivan County, in Newport, New Hampshire.

The FEA was prepared by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the FEA can be viewed at the Commission's Reference and Information Center, Room 2A, 888 First Street, N.E., Washington, D.C. 20426. Copies can also be obtained by calling the project manager, Mr. Joseph C. Adamson at (202) 219-1040.
