*Abstract:* These collections are necessary for the award and administration of discretionary and formula grants. The collections specific to ED forms are part of the reinvented process ED uses for awarding multi-year discretionary grants. The new process substantially increases flexibility of the grant process by enabling all years of multi-year budgets to be negotiated on at the time of initial award, and to submit only a performance report instead of an entire noncompeting continuation (NCC) package to receive funding.

**Algonquin Gas Transmission; Notice of Request Under Blanket Authorization**

June 27, 1996.

Take notice that on June 21, 1996, Algonquin Gas Transmission Company

(Algonquin), 1284 Soldiers Field Road, Boston, Massachusetts 02135, filed in Docket No. CP96-591-000 a request pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the National Gas Act (18 CFR 157.205 and 157.211) for authorization to construct and operate a tap valve interconnecting its existing T-system in Milford, Massachusetts with facilities constructed by Ball-Foster Glass Container Co., L.L.C. (Ball-Foster), under the blanket certificate issued in Docket No. CP87-317-000, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Algonquin states that the proposed delivery facilities will consist of a tap, meter and related data acquisition system facilities which will be installed by Algonquin within the existing right-of-way. Algonquin notes that Ball-Foster will construct a regulator station and miscellaneous piping on land it owns in Milford, which is adjacent to Algonquin's right-of-way. Algonquin asserts that the proposed addition of the proposed facilities will have no impact on its system-wide peak day deliveries because the deliveries to Ball-Foster will be interruptible, pursuant to Algonquin's Rate Schedule AIT-1. Algonquin estimates the cost of facilities to be constructed by Algonquin will be \$81.450. Ball-Foster has agreed to reimburse Algonquin for constructing these facilities. Algonquin notes that Ball-Foster will pay for facilities it will construct.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.
