SUPPLEMENTARY INFORMATION:

Background

Section 4(b) of the Act allows any interested individual to petition the Services to list, delist, or reclassify species, or to revise a listed species' critical habitat. The Petition Management Guidance provides specific guidance for the Services on petition identification, data/information submission standards, lead Region responsibilities, time frames for internal review of 90-day and 12-month findings, petition tracking, preparation of administrative findings and notices, and petitioner notification. The guidance differentiates among petitions requesting (1) actions petitionable under the provisions of section 4(b)(3) of the Endangered Species Act, (2) actions encompassed by other provisions of the Endangered Species Act, and (3) actions petitionable only under the Administrative Procedure Act.

The Petition Management Guidance identifies three petition categories under section 4(b)(3) of the Act as follows:

- (1) Petitions to list species,
- (2) Petitions to reclassify or delist species, and
- (3) Petitions to revise critical habitat.

Under each of these three categories, situations are described to assist Service employees and ensure consistency in the determination of 90-day and 12-month petition findings.

Ultimately, the Services intend to ensure that the petition process serves its function by calling appropriate attention to situations affecting the welfare of species or of any other change
