Proposed Project

Evaluation of the kiosk-based ChoiceCard. The purpose of the ChoiceCard project is to develop a kiosk-based automated application to assist Medicaid recipients in selecting and enrolling in a health plan. The proposed data collection will provide an assessment of the usability of the kiosk-based automated application in Medicaid eligibility offices and provide an assessment of the application by Medicaid recipients. The application will be assessed in terms of its effectiveness in helping the recipient identify/select a personal doctor (PCP/OB/Gyn), learn with which plan(s) a particular doctor is affiliated, understand benefits coverage, understand managed care concept and requirements, identify/select a plan that meets their needs, and enroll in a plan. Burden estimates follow:

	Consumer
No. of respondents	200.
No. of surveys per respondent	1.
Average burden/response25 hours.
Estimated total burden/response.	50 hours.

Copies of these data collection plans and instruments can be obtained from the AHCPR Reports Clearance Officer (see above for details).

AGENCY: Health Resources and Services Administration (HRSA).

ACTION: Notice of availability of funds.

SUMMARY: The HRSA announces that applications will be accepted for fiscal year (FY) 1996 funds for Maternal and Child Health (MCH) Community Integrated Service Systems (CISS) grants to support community-based intervention research. The purpose of these projects is to support research on CISS-sponsored early intervention services programs in the context of developing and expanding local service delivery systems. Awards are made under the program authority of Section 502(b)(1)(A) of the Social Security Act, the CISS Federal Set-Aside Program. Within the HRSA, CISS projects are administered by the Maternal and Child Health Bureau (MCHB).

About \$900,000 will be available to support up to 3 new projects at an average of about \$300,000 per award per year. The actual amounts available for awards and their allocation may vary, depending on the volume and quality of applications. Awards are made for grant periods of not more than 4 years in duration. Funds are appropriated by Public Law 104-134.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity for setting priority areas. The CISS Federal Set-Aside Program addresses issues related to the *Healthy People 2000* objectives of

improving maternal, infant, child and adolescent health and developing service systems for children with special health care needs. Potential applicants may obtain a copy of *Healthy People 2000* (Full Report: Stock No. 017-001-00474-0) or *Healthy People 2000* (Summary Report: Stock No. 017-001-00473-1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325 (telephone: 202 783-3238).

The PHS strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care or early childhood development services are provided to children.
