GOVERNMENT PRINTING OFFICE

The Federal Register Online Via GPO Access; Meeting and Demonstration

The United States Government Printing Office (GPO) will hold a meeting for Federal agencies, businesses, non-profit organizations and the public interested in an overview and demonstration of the Government Printing Office's award-winning online service, *GPO Access*, provided under the Government Printing Office Electronic Information Access Enhancement Act of 1993 (Public Law 103-40).

The demonstration will be held in the auditorium of the Public Library of Charlotte and Mecklenberg County, 310 North Tryon Street, Charlotte, North Carolina, 28202 on Wednesday, July 31, from 2 p.m. to 4 p.m. There is no charge to attend.

The online Federal Register service offers access to the daily issues of the Federal Register by 6 a.m. on the day of publication at no charge to the user. All notices, rules and proposed rules, Presidential documents, executive orders, separate parts, and reader aids are included in the database. Documents are available as ASCII text files and in typeset form as Adobe Acrobat Portable Document Format (PDF) files. Graphics are included in the PDF files and are also available as separate files in the TIFF format for the 1994 (Volume 59) Federal Register. The online Federal Register is available via the Internet (URL: http://www.access.gpo.gov/su_docs/aces/aces140.html) or as a dial-in service. Historical data is available from January 1994 forward.

Other databases currently available online through *GPO Access* include the *Government Manual*; *GILS Records*; *The Budget of the United States Government, Fiscal Year 1997*; *Congressional Record*; *Congressional Record Index*, including the *History of Bills*; *Congressional Bills*; *Public Laws*; *U.S. Code*; and *GAO Reports*; and a growing list of important Government documents available on the same day of publication.

Individuals interested in attending may reserve a space by contacting John R. Berger, Marketing Specialist, at the GPO's Office of Electronic Information Dissemination Services, by Internet e-mail at jberger@gpo.gov; by telephone:

202-512-1525; or by fax: 202-512-1262. Seating reservations will be accepted through Friday, July 26, 1996.

Michael F. DiMario,
Public Printer.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Announcement 656]

Community Education and Training To Address Environmental Health Research; Near Department of Energy Nuclear Weapons Facilities

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of funds in fiscal year (FY) 1996 for a cooperative agreement program to develop community education and training for environmental health research near Department of Energy (DOE) nuclear weapons facilities. The CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Environmental Health. (For ordering a copy of "Healthy People 2000," see the Section "WHERE TO OBTAIN ADDITIONAL INFORMATION.")

Authority

This program is authorized under sections 301(a) and 317 [42 U.S.C. 241(a) and 247b] of the Public Health Service Act, as amended.

Eligible Applicants

Eligible applicants are State and local health departments, or their bona fide agents or instrumentalities. This includes federally recognized Indian tribal governments.

Note: Eligible applicants may enter into contractual agreements, as necessary, to meet the requirements of the program and to strengthen the overall application. The intent to use such mechanisms must be stated in the application and the nature and scope of work

of these mechanisms require the approval of CDC. Recipient(s) must maintain the primary responsibility for conduct of the cooperative agreement.

Availability of Funds

Approximately \$300,000 will be available in FY 1996 (for both direct and indirect costs) to fund approximately one or more awards. The amount of each award will be dependent upon the number of awards made. It is expected that the awards will begin on or about September 30, 1996, for a 12-month budget period within a project period of up to 3 years. Funding estimates may vary and are subject to change. Continuation awards within the project period will be made on the basis of satisfactory progress and availability of funds.

Purpose

The purpose of this program is to support a health education effort for communities in proximity to DOE nuclear weapons facilities sites to increase understanding of environmental health research. A key focus is to increase community understanding of issues associated with potential health effects of radionuclide and chemical exposures from releases from DOE nuclear weapons facilities near the community. Another key focus will be to address community understanding of environmental health research related to past operations of nuclear weapons facilities. CDC is presently conducting dose reconstruction and health studies in communities. Increasingly, communities desire educational and health communication activities that address their need to understand the conduct of studies and interpretation of results.

Applications must focus on the following sites, listed by facility/city and State (only one award will be made per site): (1) Fernald, Ohio; (2) Hanford Nuclear Reservation, Washington; (3) Idaho National Engineering Laboratory, Idaho; (4) Los Alamos, New Mexico; and (5) Savannah River Site, Georgia/South Carolina.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient shall be responsible for the activities under A., below, and CDC shall be responsible for conducting activities under B., below:

A. Recipient Activities:

1. Develop and implement a pilot health education program on potential health effects of radionuclide and chemical exposures in communities

near DOE nuclear weapons facilities. The education program should include information that promotes a basic understanding of the scientific methods used to estimate these exposures and conduct health studies, and, at a minimum, the following:

- a. Assessment of community needs and development of an educational plan to address the identified needs.
- b. Production and distribution of educational materials such as brochures, fact sheets, and posters.
- c. Involvement of and outreach to community members, including the youth of the community.
- d. Development of workshops designed to communicate the concepts depicted in the educational materials.

2. Develop and implement a parallel evaluation program focusing on the effectiveness of every aspect of the education program in the community in the vicinity of the DOE site.

3. Develop a guidebook, based on lessons learned during the community education process, for use at the local health department level regarding education efforts for the DOE site.

4. As a follow-up to the education process, develop a report on the types of education materials/information, either generic or specific to the DOE site, that were unavailable and still need to be developed.

5. Meet with representatives of other education/community outreach project representatives at least once a year. These meetings will be coordinated by CDC.

6. Develop protocol for a community education and training program cooperatively with CDC.

7. Explore the use of distance-based learning methods for community health education.

B. CDC Activities:

1. Provide scientific assistance needed to produce the educational materials to educate the community members.

2. Provide technical assistance in regard to assessment and evaluation activities, the use of distance based learning methods, and other activities associated with the project.

3. Coordinate annual meetings.

4. Provide information regarding CDC environmental health research projects.

Evaluation Criteria

The application will be reviewed and evaluated according to the following criteria:

1. The extent to which the applicant's proposal addresses: (a) a plan for developing a health education program for diverse communities, including the youth of these communities; (b) a plan for providing information support and

liaison services to other State, local, and tribal health organizations on radiation-related health studies and; (c) plans and methods by which collaboration with other agencies will take place. The applicant must demonstrate a cultural competency for the proposed site of the education and training. (35%)

2. The extent to which the proposal has described: (a) the qualifications and commitment of the applicant; (b) detailed allocations of time and effort of staff devoted to the project, and; (c) the qualifications of the support staff. (35%)

3. The applicant's ability to collaborate with other agencies for conduct of the project, including the degree of commitment and cooperation of collaborating parties. (30%)

4. The proposed budget on the basis of its reasonableness, concise and clear justification, and consistency with the intended use of cooperative agreement funds. The application will also be reviewed as to the adequacy of existing and proposed facilities and resources for conducting project activities. (Not Scored)

Executive Order 12372 Review

This program is not subject to the Executive Order 12372 review.

Public Health System Reporting Requirements

This program is not subject to the Public Health System Reporting Requirements.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance Number is 93.283.

Other Requirements

Paperwork Reduction Act

Projects that involve the collection of information from 10 or more individuals and are funded by the cooperative agreement will be subject to review and approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

Application Submission and Deadline

An original and two copies of the application PHS Form 5161-1 (OMB Number 0937-0189) must be submitted to Ron Van Duyne, Grants Management Officer, Attention: David Elswick, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Room 300, Mailstop E-13, Atlanta, GA 30305, on or before August 5, 1996.

1. Deadline

The application shall be considered as meeting the deadline if it is either:

A. Received on or before the deadline date, or

B. Sent on or before the deadline date and received in time for submission to the objective review group. Applicant must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or the U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.

2. Late Applications

Applications which do not meet the criteria in 1.A. or 1.B. above are considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

Where to Obtain Additional Information

A complete program description, information on application procedures, an application package, and business management technical assistance may be obtained from David Elswick, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Room 300, Mailstop E-13, Atlanta, GA 30305, telephone (404) 842-6521, Internet address: DCE1@opspgo1.em.cdc.gov.

Programmatic technical assistance may be obtained from Art Robinson, Division of Environmental Hazards and Health Effects, National Center for Environmental Health, Centers for Disease Control and Prevention (CDC), 4770 Buford Highway, Mailstop F-35, Atlanta, GA 30341, telephone (770) 488-7630.

Please refer to Announcement 656 when requesting information and submitting an application.

A copy of "Healthy People 2000" (Full Report; Stock No. 017-001-00474-0) or "Healthy People 2000" (Summary Report; Stock No. 017-001-00473-1) referenced in the "INTRODUCTION" may be obtained through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325, telephone (202) 512-1800.

Atlanta, Georgia, will be the host of the 1996 Summer Olympics Games (July 19 through August 4, 1996). As a result of this event, it is likely that the Procurement and Grants Office (PGO) may experience delays in the receipt of both regular and overnight mail deliveries. Contacting PGO employees

during this time frame may also be hindered due to the possible telephone disruptions.

To the extent authorized, please consider the use of voice mail, e-mail, and facsimile transmissions to the maximum extent practicable. Please do not fax lengthy documents, contract proposals or grant applications.

Dated: July 3, 1996.

Joseph R. Carter,

Acting Associate Director for Management and Operations, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163-18-P

[Announcement 661]

Maternal and Child Health Epidemiology Programs

Introduction

The Centers for Disease Control and Prevention (CDC), announces the availability of fiscal year (FY) 1996 funds for a cooperative agreement program to provide assistance to official public health agencies to expand and strengthen existing maternal and child health (MCH) programs in epidemiology

and surveillance capacity building. All States have epidemiologic skills or activities; however, many lack MCH specific analytical capability.

CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Maternal and Infant Health. (For ordering a copy of "Healthy People 2000," see the section "Where to Obtain Additional Information.")

Authority

This program is authorized under section 317(a) [42 U.S.C. 247b(a)] of the Public Health Service Act, as amended.

Eligible Applicants

Eligible applicants are the official public health agencies of States and their bona fide agents. This includes the District of Columbia, New York City, American Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of the Marshall Islands, the Republic of Palau, and federally recognized American Indian tribal governments.

Availability of Funds

Approximately \$900,000 is available in FY 1996 to fund approximately 10 awards. It is expected that the average award will be \$75,000, ranging from \$25,000 to \$150,000. It is expected that the awards will begin on or about September 27, 1996, for a 12-month budget period within a project period of up to 5 years. Funding estimates may vary and are subject to change.

Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

If requested, Federal personnel may be assigned to a project in lieu of a portion of the financial assistance.

Purpose

The purpose of this program is to provide an opportunity for State and local health departments to: (1) use epidemiologic and surveillance data to address health problems affecting women, infants, and children; and (2) build their maternal and child health epidemiology skills to conduct surveillance, research, analysis, interpretation, and translation using their own resources.
