

jurisdictional revenues by approximately \$5.7 million annually based upon the twelve month period ended February 29, 1996, as adjusted. MIDLA proposes that the revised tariff sheets, together with the rates and conditions of service identified in such sheets, be made effective contemporaneously with the effective date of a Commission order approving an abandonment application filed by MIDLA in Docket No. CP95-730-000.

MIDLA states that the principal cause of the revenue decrease is the elimination from operation and maintenance expenses of the costs related to storage and transportation services paid to Transcontinental Gas Pipe Line Corporation ("Transco"). MIDLA requested the authority to abandon these services in its abandonment application in Docket No. CP95-730. Additional purposes of the filing of the Revised Tariff Sheets are to revise and restate the character of MIDLA's Rate Schedule NNS to reflect the conversion from the existing combined storage and transportation function to a No-Notice Service that is predicated on a transportation and receipt point commodity purchase strategy as well as to eliminate Rate Schedule(s) SMS, FSS, and ISS with all of their related references as well as several general clerical and informational modifications as described in the Statement of Nature, Reasons and Basis.

MIDLA states that since its last rate case filing, the Commission approved, in orders in MIDLA's restructuring proceeding under Order No. 636 (Docket No. RS92-20), the basic rate design and cost allocation methods which this filing reflects. Specifically, the instant filing reflects the continuation of the Straight-Fixed Variable (SFV) rate design methodology and the continuation of IT rates designed on a 100% load factor.

Pursuant to Section 154.7(a)(7) of the Commission's Regulations, MIDLA respectfully requests waiver of 154.207, notice requirements, as well as any other requirement of the Regulations in order to permit the tendered tariff sheets to become effective September 1, 1996, as submitted.

MIDLA states that, in compliance with Section 154.208, paper copies of the Revised Tariff Pages and this filing are being served upon its jurisdictional customers and appropriate state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C.

20426, in accordance with 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.
