**SUPPLEMENTARY INFORMATION:** a. The  
COE has determined that improvements  
to the dam are necessary to  
accommodate the probable maximum  
flood (PMF). Two dam corrections have  
been chosen as the most technically  
feasible:

- Alternative 1—Raising the dam to  
contain the PMF. Features of this  
alternative include: a 22-foot cantilever  
wall on top of the dam; an additional  
gravity monolith on the east bank; a gate  
closure across state route 20 on the west  
bank; removable closures at each end of  
the spillway; high-strength multi-strand  
anchors; and mass concrete thrust  
blocks topped with overburden.

- Alternative 2—Auxiliary Spillway  
to pass the PMF. Features of this  
alternative include: gated additional  
spillway over the penstocks; four  
47'x48' tainter gates; a flip-bucket  
energy dissipator and training walls;  
and high-strength multi-strand anchors.

b. The COE plans no changes from  
current day-to-day operation of the  
Bluestone Dam following completion of  
construction of necessary modifications.

c. The National Environmental Policy  
Act (NEPA) requires the COE to take  
into account the environmental impacts  
that could result from this Federal  
action. NEPA also requires that the COE  
discover and address concerns the  
public may have about the proposed  
project. This occurs during the  
"scoping" process. By this Notice, the  
COE requests public comments. All  
comments received related to the scope  
of the project are considered during the  
preparation for the EIS.

d. The EIS will discuss impacts that  
could occur as a result of construction  
and operation of the proposed project  
including impacts to biological  
resources, cultural resources, and  
socioeconomic effects, air quality, noise  
impact, and recreation resources.

e. Interested groups and individuals  
are encouraged to attend the meetings  
and to present oral comments on the  
environmental issues which they  
believe should be addressed in the Draft  
EIS. Anyone who would like to make an  
oral presentation should telephone or  
write Barry Passmore, the COE contact,  
before 4:00 pm, July 31, 1996, so that
