BILLING CODE 6565-50-P

[FRL-5536-8]

**Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption—Class I Hazardous Waste Injection; Disposal Systems of Corpus Christi, Inc., (DSICC)**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of final decision on petition reissuance.

**SUMMARY:** Notice is hereby given that modification of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act has been granted to DSICC, for the Class I injection well located at Corpus Christi, Texas. As required by 40 CFR part 148, the company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by DSICC, of the specific restricted hazardous waste identified in the exemption modification, into the Class I hazardous waste injection well at the Corpus Christi, Texas facility specifically identified in the modified exemption, for as long as the basis for granting an approval of this exemption remains valid, under provisions of 40 CFR 148.24. As required by 40 CFR 124.10, a public notice was issued May 14, 1996. The public comment period closed on June 28, 1996. EPA received no comments. This decision constitutes final Agency action and there is no Administrative appeal.

**DATES:** This action is effective as of July 3, 1996.

**ADDRESSES:** Copies of the reissued petition and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 6, Water Quality Protection Division, Source Water Protection Branch (6WQ-S), 1445 Ross Avenue, Dallas, Texas 75202-2733.

**FOR FURTHER INFORMATION CONTACT:** Ken Williams, Acting Chief, Ground Water/

UIC Section, EPA—Region 6, telephone (214) 665-7165.

William B. Hathaway,

Director, Water Quality Protection Division (6WQ).

BILLING CODE 6565-50-P

[FRL-5535-8]

**Notice of Final Decision To Grant Chemical Waste Management, Inc., a Modification of An Exemption From the Land Disposal Restrictions of the Solid and Waste Disposal Amendments of 1984 Regarding Injection of Hazardous Wastes**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of final decision on a request to modify an exemption from the Hazardous and Solid Waste Amendments of the Resource Conservation and Recovery Act.

**SUMMARY:** Notice is hereby given by the United States Environmental Protection Agency (USEPA or Agency) that modification of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act (RCRA) has been granted to Chemical Waste Management, Inc. (CWM) of Oakbrook, Illinois. This modification allows CWM to inject RCRA-regulated hazardous wastes which will be banned from land disposal on July 8, 1996, January 8, 1997, and April 8, 1998 as a result of the Phase III Rule. Wastes designated by a total of 91 additional RCRA waste codes, may continue to be land disposed through four waste disposal wells at the facility at Vickery, Ohio. As required by 40 CFR Part 148, CWM has demonstrated, to a reasonable degree of certainty, that there will be no migration of hazardous constituents from the injection zone utilized by CWM's waste disposal facility located near Vickery, Ohio, for as long as the newly exempted waste remains hazardous. This decision constitutes a final Agency action for which there is no administrative appeal.

**SUPPLEMENTARY INFORMATION:**

**Background**

CWM submitted a petition for an exemption from the restrictions on land disposal of hazardous wastes on January 19, 1988. Revised documents were received on December 4, 1989, and several supplemental submittals were subsequently made. The exemption was granted on August 7, 1990. On September 12, 1994, CWM submitted a

petition to modify the exemption to include wastes bearing 23 additional wastes codes. Region 5 reviewed documents supporting the request and granted the modification of the exemption on May 16, 1995. A notice of the modification appeared on June 5, 1996 at 60 FR 29592 et seq.

On April 9, 1996, in response to the Land Disposal Restrictions Phase III Rule which set ban dates for a number of hazardous waste constituents, CWM submitted a request to add 91 additional waste codes to its exemption. After careful review of the material submitted, the USEPA has determined, as required by 40 CFR part 148.20(f), that there is a reasonable degree of certainty that waste streams containing constituents designated by these codes will behave hydraulically and chemically like wastes for which CWM was granted its original exemption and will not migrate from the injection zone within 10,000 years. The injection zone is the Mt. Simon Sandstone and the Rome, Conasauga, Kerbel, and Knox Formations. The confining zone is comprised of the Wells Creek and Black River Formations.

A public notice of the proposed decision was issued on May 1, 1996. A single comment letter was received during the public comment period which expired on June 14, 1996. This comment did not provide any information which affected the basis of the decision to modify the CWM exemption.

As a result of this action, CWM may continue to inject the wastes bearing the codes:

K156, K157, K158, K159, K160, K161, P127, P128, P185, P188, P189, P190, P191, P192, P194, P196, P197, P198, P199, P201, P202, P203, P204, P205, U271, U277, U278, U279, U280, U364, U365, U366, U367, U372, U373, U375, U376, U377, U378, U379, U381, U382, U383, U384, U385, U386, U387, U389, U390, U391, U392, U393, U394, U395, U396, U400, U401, U402, U403, U404, U407, U409, U410, and U411

after wastes denoted by these codes are banned from land disposal on July 8, 1996; CWM may continue to inject wastes denoted by the waste code K088 after wastes denoted by this code is banned from land disposal on January 8, 1997; and CWM may continue to inject wastes denoted by the RCRA waste codes:

D018, D019, D020, D021, D022, D023, D024, D025, D026, D027, D028, D029, D030, D031, D032, D033, D034, D035, D036, D037, D038, D039, D040, D041, D042, and D043

after the wastes denoted by these codes are banned from land disposal on April 8, 1998. These waste codes are added to

the waste codes which have been previously exempted and are listed in the Federal Register notice of June 5, 1995.

**CONDITIONS:** General conditions of this exemption are found at 40 CFR Part 148. The exemption granted to CWM on August 7, 1990 included a number of specific conditions. Conditions numbered (1), (2), (3), (4), and (9) remain in force. Monitoring under condition 5, which called for construction and operation of a deep monitoring well, will continue through the life of the facility. Conditions numbered (5), (6), (7), and (8) have been satisfied. The results of the work carried out under these conditions confirms that the model used to simulate fluid movement within the injection zone for the next 10,000 years is valid and results of the simulation bound the region of the injection zone within which the waste will be contained.

**DATES:** This action is effective as of June 24, 1996.

**FOR FURTHER INFORMATION CONTACT:** Harlan Gerrish or Nathan Wiser, Lead Petition Reviewers, USEPA, Region 5, telephone (312) 886-2939 or (312) 353-9569, respectively. Copies of the petition and all pertinent information relating thereto are on file and are part of the Administrative Record. It is recommended that you contact the lead reviewer prior to reviewing the Administrative record.

**Underground Injection Control Program Hazardous Waste Injection Restrictions; Petition for Exemption—Class I Hazardous Waste Injection; EMPAK, Inc., (EMPAK)**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of final decision on petition reissuance.

**SUMMARY:** Notice is hereby given that modification of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act has been granted to EMPAK, for the Class I injection well located at Deer Park, Texas. As required by 40 CFR part 148, the company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by petition and supporting documentation

that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by EMPAK, of the specific restricted hazardous waste identified in the exemption modification, into the Class I hazardous waste injection well at the Deer Park, Texas facility specifically identified in the modified exemption, for as long as the basis for granting an approval of this exemption remains valid, under provisions of 40 CFR 148.24. As required by 40 CFR 124.10, a public notice was issued May 8, 1996. The public comment period closed on June 24, 1996. EPA received no comments. This decision constitutes final Agency action and there is no Administrative appeal.

**DATES:** This action is effective as of July 3, 1996.

**ADDRESSES:** Copies of the reissued petition and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 6, Water Quality Protection Division, Source Water Protection Branch (6WQ-S), 1445 Ross Avenue, Dallas, Texas 75202-2733.

**FOR FURTHER INFORMATION CONTACT:** Ken Williams, Acting Chief, Ground Water/UIC Section, EPA—Region 6, telephone (214) 665-7150.

**Notice of Open Meeting of the Environmental Financial Advisory Board on August 15-16, 1996**

The Environmental Protection Agency's (EPA) Environmental Financial Advisory Board (EFAB) will hold an open meeting of the full Board on August 15-16, 1996. The meeting will be held in the Visitors Center Conference Room of the Presidio National Park in San Francisco, California. The August 15 session will run from 9:00 a.m. to 5:00 p.m., while the August 16 session will run from 8:00 a.m. to 11:00 a.m.

EFAB is chartered with providing authoritative analysis and advice to the EPA Administrator on environmental finance. The purpose of this meeting is to develop a strategic action agenda to direct the Board's work activities over the remainder of this year and into 1997. Financing topics expected to be

discussed include: brownfields redevelopment, private sector participation in delivering environmental services, financial tools to pay for sustainable environmental systems, and funding options for drinking water systems.

The meeting will be open to the public, but seating is limited. For further information, please contact Eugene Pontillo, U.S. EPA on 202-260-6044, or Joanne Lynch, U.S. EPA on 202-260-1459.

Dated: June 28, 1996.

George Ames,

*Acting Director, Resource Management Division.*

**FEDERAL COMMUNICATIONS COMMISSION**

**Notice of Public Information Collections Being Reviewed by the Federal Communications Commission**

July 9, 1996.

**SUMMARY:** The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Persons wishing to comment on this information collection should submit comments September 13, 1996.

**ADDRESSES:** Direct all comments to Dorothy Conway, Federal Communications Commission, Room 234, 1919 M St., NW., Washington, DC
