Title: Prevention of Alcohol Misuse in Transit Operations (OMB Number: 2132-0557)

Background: The Omnibus Transportation Employee Testing Act of 1991 (Pub.L. 102-143, October 28, 1991, now codified in relevant part at 49 U.S.C. Section 5331) requires any recipient of Federal financial assistance under 49 U.S.C. Sections 5309, 5307, or 5311 or under 23 U.S.C. Section 103(e) (4) to establish a program designed to help prevent accidents and injuries resulting from the misuse of drugs and alcohol by employees who perform safety-sensitive functions. FTA's regulation, 49 CFR Part 654, "Prevention of Alcohol Misuse in Transit Operations," effective March 17, 1994, requires recipients to submit to FTA annual reports containing data which summarize information concerning the recipients' alcohol testing program, such as the number and type of test given, number of positive test results, and the kind of safety-sensitive function the employee performs. FTA uses these data to ensure compliance with the rule, to assess the misuse of alcohol in the transit industry, and to set the random testing rate. The data will also be used to assess the effectiveness of the rule in reducing the misuse of alcohol among safety-sensitive transit employees and making transit safer for the public.

Respondents: State and local government, business or other for-profit, non-profit institutions, and small businesses organizations.

Estimated Annual Burden on Respondents: 20.1 hours for each of the 1,615 respondents.

Estimated Total Annual Burden: 32,480 hours.

Frequency: Annual.

Title: Nondiscrimination As It Applies to FTA Grant Programs (OMB Number: 2132-0542)

Background: All entities receiving Federal financial assistance from FTA are prohibited from discriminating against any employee or applicant for employment because of race, color, creed, sex, national origin, age, or disability. To ensure that FTA's equal employment opportunity (EEO)
