SUPPLEMENTARY INFORMATION:
I. Background on the West Virginia Program
On January 21, 1981, the Secretary of the Interior conditionally approved the West Virginia program. Background information on the West Virginia program, including the Secretary's findings, the disposition of comments, and the conditions of the approval can be found in the January 21, 1981, Federal Register (46 FR 5915–5956). Subsequent actions concerning the West Virginia program and previous amendments are codified at 30 CFR § 38±2–14.3(c) concerning topsoil substitutes was inadvertently omitted from that notice. Therefore, OSM is reopening the public comment period only on the following proposed amendment.
Section 38–2–14.3(c)(2) is amended by adding the word "reasonably" immediately following the word "best." As amended, subsection (c)(2) reads as follows: "The resulting soil medium is the best reasonably available in the permit area to support vegetation; and..."
III. Public Comment Procedures
In accordance with the provisions of 30 CFR 732.17(h), OSM is now seeking comments on the proposed amendment submitted by the State of West Virginia to its permanent regulatory program. Specifically, OSM is seeking comments on the revision to the State's regulations that was submitted on April 2, 1996 (Administrative Record No. WV–1024), and is identified as above. Comments should address whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the West Virginia program.
Written Comments
Written comments should be specific, pertinent to the issue proposed in this notice and include explanations in support of the commenter's recommendations. Comments received after the time indicated under DATES or at locations other than the OSM Charleston Field Office will not necessarily be considered in the final rulemaking or included in the Administrative Record.
IV. Procedural Determinations
Executive Order 12291
On July 12, 1984, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7 and 8 of Executive Order 12291 (Reduction of Regulatory Burden) for actions related to approval or conditional approval of State regulatory programs, actions and program amendments. Therefore, preparation of a regulatory impact analysis is not necessary, and OMB regulatory review is not required.
Executive Order 12988
The Department of the Interior has conducted the reviews required by section 3 of Executive Order 12988 (Civil Justice Reform) and has determined that, to the extent allowed by law, this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards...
are not applicable to the actual language of State regulatory programs and program amendments since each such program is drafted and promulgated by a specific State, not by OSM. Under sections 503 and 505 of the Surface Mining Control and Reclamation Act (SMCRA) (30 U.S.C. 1253 and 1255) and 30 CFR 730.11, 732.15 and 732.17(h)(10), decisions on proposed State regulatory programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR parts 730, 731 and 732 have been met.

National Environmental Policy Act

No environmental impact statement is required for this rule since section 702(d) of SMCRA [30 U.S.C. 1292(d)] provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C).

Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by the Office of Management and Budget under the Paperwork Reduction Act, 44 U.S.C. 3507 et seq.

Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities.

Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

Unfunded Mandates

This rule will not impose a cost of $100 million or more in any given year on any governmental entity or the private sector.
