July 12, 1996.

Take notice that on July 8, 1996, Questar Pipeline Company (Questar), 79 South State Street, Salt Lake City, Utah 84111, filed in Docket No. CP96-627-000 an application pursuant to Section 7(c) of the Natural Gas Act for authorization to increase the Maximum Authorized Operating Pressure (MAOP) on its Main Lines (M.L.) Nos. 1 and 13 between the Eakin Compressor Station and the Coalville Compressor Station and to restage the Eakin No. 5 compressor, all as more fully set forth in the application on file with the Commission and open to public inspection.

Questar proposes to increase the MAOP from 700 psig to 860 psig following replacement of the pipelines under Section 2.55 of the Commission's Regulations.
