The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

Troy H. Cribb,
Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements
July 15, 1996.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 29, 1995, by the Chairman of CITA. That directive concerns imports of certain cotton and man-made fiber textile products, produced or manufactured in Nepal and exported during the twelve-month period which began on January 1, 1996 and extends through December 31, 1996.

Effective on July 16, 1996, you are directed to adjust the limits for the following categories, as provided for in the agreement dated December 2, 1993 and July 22, 1994 as amended and extended between the Governments of the United States and the Kingdom of Nepal:

<table>
<thead>
<tr>
<th>Category</th>
<th>Twelve-month limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>336/363</td>
<td>221,131 dozen.</td>
</tr>
<tr>
<td>340</td>
<td>397,408 dozen.</td>
</tr>
<tr>
<td>341</td>
<td>871,762 dozen.</td>
</tr>
</tbody>
</table>

The limits have not been adjusted to account for any imports exported after December 31, 1995.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,
Troy H. Cribb,
Chairman, Committee for the Implementation of Textile Agreements.

Abstract: Sixteen reporting and recordkeeping requirements are addresses by this submission. They are needed to ensure compliance with U.S. Regulations for the design and operation of liquefied gas carriers. The regulations also address cargo operations, handling and safety. The regulations currently apply to 195 foreign flag vessels and 14 U.S. flag vessels.

Under 46 U.S.C. 3703, Coast Guard is tasked with the protection of life, property and the marine environment from hazards associated with the carriage of liquid bulk dangerous cargoes. This information will be used to determine if a vessel meets U.S. safety regulations for the carriage of liquefied gases.

Burden Estimate: The current total annual respondent burden estimate is 3,914 hours. The average burden hour per response is 1.87 hours reporting and 17.065 minutes recordkeeping.

Title: Electrical Engineering Regulations—46 Subchapter J [ICR No. 2115-0115].

OMB No: 2115-0115.

Affected Entities: Manufacturers and owners of new built-vessels.

Abstract: Electrical Engineering Regulations are necessary to promote the safety of life at sea on USCG certified vessels. The Coast Guard reviews plans and procedures to determine compliance and evaluate necessary manning of automated vessels.

Title 46 CFR Subchapter J require the ship building industry to submit to the Coast Guard, for review and approval, their electrical engineering plans for new built vessels. Coast Guard will use this information to ensure compliance with the regulations are met.

Burden Estimate: The current total annual respondent burden estimate is 478 hours. The average burden hour per response is 1 hour reporting.

Title: Electrical Equipment and Fire Protection Systems—46 CFR Subchapter Q [2115-0121].

OMB No: 2115-0121.

Affected Entities: Manufacturers of electrical equipment, vessel designers, shipyards and owners.

Abstract: Electrical equipment and fire protection systems are necessary to promote the safety of life on USCG certified vessels. The Coast Guard reviews plans and procedures to determine compliance and evaluate specifications of automated vessels.

Title 46 CFR Parts 161 through 164 require Coast Guard’s approval before specific types of electrical equipment can be installed on modified or new vessels. Coast Guard will use this information collection to ensure that...
manufacturers are in compliance with technical requirements contained in the regulations.

Burden Estimate: The current total annual respondent burden estimate is 268 hours. The average burden hour per response is 4 hours reporting.

Title: Tank Vessel Examination Letter (CG-8405-1 & 2), Certificate of Compliance/Pressure Vessel Repairs, Maintaining Cargo Gear Record, Shipping Papers, the Tank Vessel Examination Letter and the Certificate of Compliance [ICR No. 2115±0504]. OMB No: 2115±0504.

Affected Entities: Owners/operators of large merchant vessels and foreign flag tankers.

Abstract: This information is needed to enable the Coast Guard to fulfill its responsibilities for maritime safety under Title 46 U.S.C. 3301, 3305, 3306, 3702, 3703, 3711, and 3714. It is solely for this purpose.

Title 46 CFR requires the reporting of Boiler and Pressure Vessel Repairs, maintaining Cargo Gear Records, Shipping Papers, the Tank Vessel Examination Letter and the Certificate of Compliance. This information will be used to ensure information that is unique to each vessel is available for Coast Guard boarding personnel and that work done on Coast Guard certified devices have properly been accomplished.

Burden Estimate: The current total annual respondent burden estimate is 23,537.73 hours. The average burden hour per response is 6 minutes reporting 3 hours recordkeeping.

Title: Requirements for Lightering of Oil and Hazardous Materials Cargoes [2115±0539]. OMB No: 2115±0539.

Affected Entities: Owners and operators of passenger vessels and Terminals.

Abstract: Offshore Lightering involves the transfer of large volumes of bulk liquids between vessels, creating the high potential for a major oil spill. The collection of information allows the USCG to provide timely response in an emergency, minimize the environmental damage from an oil or hazardous material spill and control location and procedures for Lightering activities.

The Port and Tanker Act of 1978, requires the Coast Guard to develop regulations for the Lightering of oil and hazardous materials which take place in the navigable waters of the U.S. or high seas if the cargo is designed for a port or place subject to the jurisdiction of the U.S.

This information will be used to inform the local Coast Guard Captain of the Port of the time and place of cargo transfer. Also, to ensure the vessels involved are in compliance with Coast Guard inspection requirements, possess a valid Certificate of Responsibility and have approved pollution response plans on file.

Burden Estimate: The current total annual respondent burden estimate is 315 hours. The average burden hour per response is 2 hours reporting.

Title: (a) Report of MARPOL 73/78 Oil, Noxious Liquid Substance (NLS) and Garbage Discharge; (b) Application for Equivalents, Exemptions, and Alternatives; and © Voluntary Reports of Pollution Sightings [ICR No. 2115±0556]. OMB No: 2115±0556.

Affected Entities: Individuals business or other for-profit organizations and the Federal Government.

Abstract: Discharge of pollutants in excess of what is permitted under MARPOL 73/78 and pollution sightings must be reported to the Coast Guard so that appropriate response to the threatening pollution incidents and effective enforcement of MARPOL 73/78 and its implementing law and regulations will be possible. Public should be allowed to apply, in writing for equivalents, exemptions and alternatives.

The Act to prevent Pollution from Ships (33 U.S.C. 1901±1911) requires that the master or other person in charge of a ship to report discharges of pollutants that violate MARPOL 73/78. Coast Guard will use this information to determine what corrective action is required to prevent, minimize, or mitigate the impact of oil or hazardous chemical pollution on the public health or welfare, or the environment.

Burden Estimate: The current total annual respondent burden estimate is 15 hours. The average burden hour per response is 30 minutes reporting.

Affected Entities: Small passenger vessel owners.

Abstract: The reporting and recordkeeping requirements are necessary for the proper administration and enforcement of small passenger vessel program. The requirements effect small passenger vessels (under 100 gross tons) which carry more than 6 passengers.

Under 46 U.S.C. 3305 and 3306, the Coast Guard must prescribe regulations for the design, construction, alteration, repair and operation of small passenger vessels to secure the safety of individuals and property on board. The Coast Guard’s proposed use of this information is to ensure that compliance with the requirements for proper safety equipment, operation and crew emergency preparedness are met.

Burden Estimate: The current total annual respondent burden estimate is 405,608 hours. The average burden hour per response is 1 hour reporting and 4 hours recordkeeping.

Issued in Washington, D.C. on July 15, 1996.
