

forth the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

The FAA has completed its review of the Noise Exposure Maps and supporting documentation submitted by the Mohave County Airport Authority. The specific maps under consideration are Exhibit 2G, "1996 Aircraft Noise Exposure" and Exhibit 2H "2001 Aircraft Noise Exposure" in the submission. The FAA has determined that these maps for Laughlin/Bullhead International Airport are in compliance with applicable requirements. This determination is effective on July 9, 1996. FAA's acceptance of an airport operator's Noise Exposure Maps is limited to a finding that the maps were developed in accordance with the procedures contained in Appendix A of FAR Part 150. Such acceptance does not constitute approval of the applicant's data, information or plans, or a commitment to approve a Noise Compatibility Program or to fund the implementation of that program.

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a Noise Exposure Map, submitted under Section 103 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the Noise Exposure Maps to resolve questions concerning, for example, which properties should be covered by the provisions of Section 107 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under FAR Part 150 or through FAA's review of the Noise Exposure Maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator which submitted those maps, or with those public agencies and planning agencies with which consultation is required under Section 103 of the Act. The FAA has relied on the certification by the airport operator, under Section 150.21 of FAR Part, that the statutory required consultation has been accomplished.

Copies of the Noise Exposure Maps and of the FAA's evaluation of the maps are available for examination at the following locations:

SUPPLEMENTARY INFORMATION:

Meeting Procedures

The following procedures will be used to facilitate the meetings:

(a) The meetings will be informal in nature and will be conducted by a representative of the FAA Western-Pacific Region. Representative from the FAA will present a formal briefing on the proposed revisions of the Class B and Class C airspace areas. Each participant will be given an opportunity to deliver comments or make a presentation.

(b) The meetings will be open to all persons on a space-available basis. There will be no admission fee or other charge to attend and participate.

(c) Any person wishing to make a presentation to the FAA panel will be asked to sign in and estimate the amount of time needed for such presentation. This will permit the panel to allocate an appropriate amount of time for each presenter.

(d) The meeting will not be adjourned until everyone on the list has had an opportunity to address the panel.

(e) Position papers or other handout material relating to the substance of the meeting will be accepted. Participants wishing to submit handout material should present *three* copies to the presiding officer. These should be additional copies of each handout available for other attendees.

(f) The meetings will not be formally recorded. However, a summary of the comments made at the meeting will be filed in the docket.
