Beaver Shoe Company, Kinney Shoe Corporation, Beaver Springs, Pennsylvania; Notice of Revised Determination on Reopening

On May 9, 1996, the Department issued a Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to all workers of Kinney Shoe Corporation, located in Beaver Springs, Pennsylvania. The notice was published in the Federal Register on May 24, 1996 (FR 61 26219).

On its own motion, the Department reviewed the findings of the investigation. The workers produce men's, women's and children's footwear. Findings show that Beaver Shoe Company is a manufacturing division of Kinney Shoe Corporation. The subject firm had declining sales, production and employment during the time period relevant to the investigation.

New findings on reopening show that the footwear production by Kinney Shoe Corporation is mass marketed. Therefore, the articles manufactured by the subject firm have been impacted importantly by the high penetration of nonrubber footwear imports in this market. In 1994 and 1995, the ratio of U.S. imports to domestic production of men's shoes was more than 300%, and for women's shoes more than 1,000%.

Conclusion

After careful review of the additional facts obtained on reopening, I conclude that increased imports of articles like or directly competitive with shoes contributed importantly to the declines in sales or production and to the total or partial separation of workers of all affected workers of the Beaver Shoe Company in Beaver Springs, Pennsylvania. In accordance with the provisions of the Act, I make the following certification:

All workers of Beaver Shoe Company, Kinney Shoe Corporation, Beaver Springs, Pennsylvania, who became totally or partially separated from employment on or after March 14, 1995 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, DC this 3rd day of July 1996.

Acting Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
