[Docket No. GT96-74-000]

Williams Natural Gas Company; Notice of Refund Report

July 19, 1996.

Take notice that on July 15, 1996, Williams Natural Gas Company (WNG) tendered for filing a report of refunds made to customers, pursuant to Commission order issued February 22, 1995, in Docket No. RP95-124-000.

WNG states that the February 22 order directed each pipeline receiving a refund from GRI to credit such refunds pro rata to its eligible firm customers, and within 15 days of making these credits, file a refund report with the Commission.

WNG states that the refund report reflects refunds of \$71,414 made by

WNG to its eligible firm customers on July 15, 1996.

WNG states that a copy of its filing was served on all customers receiving a refund and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426, in accordance with Sections 385.211 and 385.214 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before July 26, 1996. Protests will be considered by the Commission in determining appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lois D. Cashell,

Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5541-6]

Agency Information Collection Activities Under OMB Review; OMB #2060-0083; EPA #1127.05 and OMB Number: 2060-0004; EPA ICR Number: 0658.06

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the Information Collection Requests (ICRs) NSPS for Hot Mix Asphalt Facilities (Subpart I) and NSPS for Pressure Sensitive Tape and Label Surface Coating (Subpart RR) described below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the nature of the information collections and their expected burden and cost; where appropriate, they include the actual data collection instruments.

DATES: Comments must be submitted on or before August 26, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1127.05 or 0658.06.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for Hot Mix Asphalt Facilities (OMB Control No. 2060-0083; EPA ICR No. 1127.05). This is a request for extension of a currently approved collection.

Abstract: Owners/operators of hot mix asphalt facilities must notify EPA of construction, modification, startups, shut downs, date and results of initial performance test. The only type of industry costs associated with the information collection activity in the standards are labor costs. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 29, 1995.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4,611 hours. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of hot mix asphalt facilities.

Estimated Number of Respondents: 1370.

Frequency of Response: annually.

Estimated Number of Responses: 1370.

Estimated Total Annual Hour Burden: 4611 hours.

⁸Filing was made on July 10, 1996; comments are due on or before August 9, 1996.

⁹Filing was made on July 11, 1996; comments are due on or before August 12, 1996.

Estimated Total Annualized Cost Burden: \$0.

Title: NSPS for Pressure Sensitive Tape and Label Surface Coating (Subpart RR); OMB Control No. 2060-0004; EPA ICR No. 0658.06. This is a request for extension of a currently approved collection.

Abstract: Owners and operators of facilities that manufacture pressure sensitive tape and labels must make the following onetime-only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of initial start-up; notification of any physical change to an existing facility that may increase the regulated pollutant emission rate; notification of initial performance test and the results of the initial performance test. Owners or operators are also required to maintain records of the occurrences and duration of any start-up, shut-down or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports and records are required, in general, of all sources subject to NSPS.

Monitoring requirements specific to these coating operations consist of maintaining a calendar month record of all coatings used and their VOC content, the amount of solvent applied and recovered, and temperature of exhaust gases during incineration.

This collected information is used by the Agency to efficiently monitor industry compliance with NSPS. In the absence of collecting such information, continuous monitoring of compliance with the standards could be ensured only through continuous on-site inspections by regulatory agency personnel, which would be extremely costly.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 3/26/96 (61 FR 13177). No comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 6.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the

time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: owners and operators who manufacture pressure sensitive tape and labels.

Estimated Number of Respondents: 350.

Estimated Number of Responses: 724.

Frequency of Response: semiannual.

Estimated Total Annual Hour Burden: 36,302 hours.

Estimated Total Annualized Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1127.05 and OMB Control No. 2060-0083 or EPA ICR No. 0658.06 and OMB Control No. 2060-0004 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460, and
Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: July 16, 1996.

Joseph Retzer,
Director, Regulatory Information Division.

BILLING CODE 6560-50-U

[OPPTS-140246; FRL-5386-1]**Access to Confidential Business Information by Versar, Inc.**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has authorized its contractor, Versar, Inc. (VER), of Springfield, Virginia, and Versar's subcontractors, General Science Corporation (GSC) of Laurel, Maryland, for access to information which has

been submitted to EPA under sections 4, 5, 6, and 8 of the Toxic Substances Control Act (TSCA). Some of the information may be claimed or determined to be confidential business information (CBI).

DATES: Access to the confidential data submitted to EPA will occur no sooner than August 8, 1996.

FOR FURTHER INFORMATION CONTACT: Susan B. Hazen, Director, TSCA Environmental Assistance Division 7408, Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-545, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD: (202) 554-0551; e-mail: TSCA-Hotline@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Under contract number 68-W6-0023, contractor VER of 6850 Versar Center, Springfield, VA, and its subcontractors GSC of 6100 Chevy Chase Drive, Laurel, MD, will assist the Office of Pollution Prevention and Toxics (OPPT) in providing exposure assessment support for both new and existing chemicals.

In accordance with 40 CFR 2.306(j), EPA has determined that under EPA contract number 68-W6-0023, VER and GSC will require access to CBI submitted to EPA under sections 4, 5, 6, and 8 of TSCA to perform successfully the duties specified under the contract. VER and GSC personnel will be given access to information submitted to EPA under sections 4, 5, 6, and 8 of TSCA. Some of the information may be claimed or determined to be CBI.

In a previous notice published in the Federal Register of October 15, 1992 (57 FR 47336) VER and GSC were authorized for access to CBI submitted to EPA under sections 4, 5, 6, and 8 of TSCA. EPA is issuing this notice to extend VER and GSC access to TSCA CBI under the new contract number 68-W6-0023.

EPA is issuing this notice to inform all submitters of information under sections 4, 5, 6, and 8 of TSCA that EPA may provide VER and GSC, access to these CBI materials on a need-to-know basis only. All access to TSCA CBI under this contract will take place at EPA Headquarters and at VER's Springfield, VA site.

VER will be authorized access to TSCA CBI at its facility under the EPA *TSCA Confidential Business Information Security Manual*. GSC will be authorized access to TSCA CBI at EPA Headquarters only. Before access to TSCA CBI is authorized at VER's site, EPA will approve their security certification statement, perform the required inspection of its facility, and ensure that the facility is in compliance
