I. Information Collection Request

The Foundation is seeking comments on the following request.

Title: Nominee Information Form, OMB No. 3200-0004. Approved for use through 11/30/96.

Affected entities: Parties affected by this information collection are college juniors who wish to compete for Truman Scholarships.

Abstract: PL 93-642 authorizes the Foundation to provide for the conduct of a national competition for the purpose of selecting Truman scholars. The purpose of this information collection through the NIF is to enable a committee to review the credentials of applicants and to determine which appear to meet the selection criteria and should be designated as Finalists and invited to an interview. For persons invited to the interview, the information collection through the NIF helps the Truman Scholars Selection Panel make its decisions after interviewing the Finalists. Data collected include: schools attended; campus, community and government activities and services; awards received; leadership and public service interests and ambitions; graduate study plans; and other information that candidates deem significant. It also includes a 700-800 analysis of a public policy issue chosen by the applicant to demonstrate analytical and writing skills. The data are used only by Foundation staff or selection committees except for items that may be used to publicize the

program, to provide examples to help candidates in future years, or aggregated for educational research purposes.

Likely respondents: The likely respondents consist of 800–900 college juniors who wish to receive support from the Foundation to attend graduate school in preparation for careers in the public service. Each applicant is required to submit this application only once. He/she is also required to provide four letters of recommendation including one from the Truman Scholarship Faculty Representative at his/her institution:

Burden Statement: The current total annual respondent burden is estimated at 20,000 hours based on 800 applicants spending 25 hours each on the application and the public policy analysis.

II. Request for Comments

The Foundation solicits comments to:

(1) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility;

(2) evaluate the accuracy of the Foundation's estimate of the burden of the proposed collection of the information;

(3) enhances the quality, utility, and clarity of the information to be collected; and

(4) minimize the burden of the collection of information on those who are to respond.

III. Public Docket
