

SUPPLEMENTARY INFORMATION: The L.H. Inc. Site consisted of three lagoons on approximately one-third acre in an area of mixed industrial and residential land use. The lagoons had been used for the treatment of spent pickle liquor generated by the steel industry, a hazardous waste. L.H. Inc., an Ohio corporation, conducted the hazardous waste treatment activities without the necessary permit during 1980. Phyllis L. Snedegar and Janice C. Barricklow were officers and directors of L.H. Inc. During 1985, after an administrative law judge had ordered L.H. Inc. to properly close the facility at 1502 Beckett Avenue, Cambridge, Ohio, L.H. Inc. declared bankruptcy. The facility was not properly closed.

A site assessment conducted by EPA during 1991 revealed that sludges in two of the three lagoons were characteristic hazardous waste owing to the high chromium content of the sludges. On October 13, 1992, EPA issued a unilateral administrative order to Phyllis L. Snedegar, Janice C. Barricklow, and another individual, ordering them to conduct certain removal activities at the L.H. Inc. Site in order to eliminate threats to public health, welfare, or the environment. The order found that exposure to the hazardous waste in the lagoon was possible because the lagoons were not secure and because weather conditions could result in their overflowing. During 1993 Snedegar and Barricklow performed the removal activities, removing and properly disposing of the lagoon contents, sampling the area near the lagoons, and backfilling the lagoons with clean soil. EPA does not expect that further removal actions will be necessary at the L.H. Inc. Site.

The proposed administrative settlement agreement provides for Snedegar and Barricklow to pay to EPA \$12,000, which is approximately one-fifth of EPA's unreimbursed past response costs for the L.H. Inc. Site. Effective upon receipt of payment, EPA covenants not to sue Snedegar and Barricklow for the remainder of EPA's past Site response costs.

EPA is entering into these agreements under the authority of Sections 107 and 122(h) of CERCLA. Section 122(h) authorizes EPA to enter into administrative settlements with potentially responsible parties for the recovery of EPA's past costs where such claims have not been referred to the Department of Justice for further action.

The Environmental Protection Agency will receive written comments relating to this agreement for thirty days from the date of publication of this notice.

I have determined that the damage in certain areas of the State of Indiana, resulting from severe storms and flooding beginning on April 28, 1996, through May 25, 1996, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T.
