

Yahya Abdulahi, Ph.D., Clark Atlanta University: Based on its review of a report from the institution and ORI's own analysis, ORI found that Yahya Abdulahi, former Research Scientist, Department of Biology, Clark Atlanta University, committed scientific misconduct by plagiarizing words and concepts from a publication in the *Journal of Environmental Health* and by misrepresenting data in sections of a Public Health Service (PHS) grant application.

Specifically, Dr. Abdulahi's grant application contains extensive and significant plagiarism in the "Description," "Background and Significance," "Experimental Design and Methods," and "Literature Cited" sections and contains plagiarism and misrepresentation of data in the "Preliminary Studies" section. Dr. Abdulahi's actions were serious in that (1) the plagiarism involved the use of extensive sections of a publication without attribution; (2) the materials, as plagiarized in the grant application, included misrepresented data; (3) the plagiarism included expropriation of the concept of the study in the publication; and (4) the plagiarism persisted throughout important portions of Dr. Abdulahi's grant application.

Dr. Abdulahi has entered into a Voluntary Exclusion Agreement with ORI in which he has voluntarily agreed, for the three (3) year period beginning July 16, 1996, to exclude himself from:

- (1) Any contracting or subcontracting with any agency of the United States Government and from eligibility for, or involvement in, nonprocurement transactions (e.g., grants and cooperative agreements) of the United States Government as defined in 45 CFR part 76 (Debarment Regulations), and
- (2) Serving in any advisory capacity to the Public Health Service (PHS), including but not limited to service on any PHS advisory committee, board, and/or peer review committee, or as a consultant.

No publications were required to be corrected as part of this Agreement.
