Receipt of Noise Compatibility Program and Request for Review; McGhee Tyson Airport, Knoxville, TN

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing an updated noise compatibility program that was submitted for McGhee Tyson Airport under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96-193) hereinafter referred to as "the Act") and 14 CFR Part 150 by Metropolitan Knoxville Airport Authority. McGhee Tyson Airport has an existing noise compatibility program approved May 5, 1989, and amended March 4, 1993. This updated Noise Compatibility Program was submitted subsequent to a decision by FAA that associated noise exposure maps submitted under 14 CFR Part 150 for McGhee Tyson were in compliance with applicable requirements effective October 12, 1995. The proposed updated Noise Compatibility Program will be approved or disapproved on or before January 18, 1997.

EFFECTIVE DATE: The effective date of the start of FAA's review of the noise compatibility program is July 22, 1996. The public period ends September 20, 1996.

FOR FURTHER INFORMATION CONTACT: Peggy S. Kelley, Memphis Airports District Office, 2851 Directors Cove, Suite 3, Memphis, Tennessee 38131-0301. Telephone 901-544-3495. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program for McGhee Tyson Airport which will be approved or disapproved on or before January 18, 1997. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to Title I of the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposed for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

The FAA has formally received the proposed updated noise compatibility program for McGhee Tyson Airport, effective July 22, 1996. It was requested that the FAA review this material and that the noise mitigation measures to be implemented by the airport be approved as measures to the noise compatibility program under Section 104(b) of the Act. An amendment to the updated program, submitted subsequent to the updated noise compatibility program document, is also considered.

Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days will be completed on or before January 18, 1997.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR Part 150, § 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of the maps, the noise compatibility program, and the proposed revisions to the noise compatibility program are available for examination at the following locations:
