

investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters not previously reviewed will be 21 percent, the rate established in *Pure Magnesium From Canada: Amendment of Final Determination of Sales At Less Than Fair Value and Order in Accordance With Decision on Remand*, 58 FR 62643, November 29, 1993.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Interested parties may request disclosure within five days of the date of publication of this notice and may request a hearing within 10 days of the date of publication. Any hearing, if requested, will be held as early as convenient for the parties but not later than 44 days after the date of publication or the first workday thereafter. Case briefs or other written comments from interested parties may be submitted not later than 30 days after the date of publication of this notice. Rebuttal briefs and rebuttal comments, limited to issues raised in the case briefs, may be filed not later than 37 days after the date of publication. The Department will publish the final results of this administrative review, including its results of its analysis of issues raised in any such written comments.

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: July 24, 1996.

Robert S. LaRussa,  
*Acting Assistant Secretary for Import Administration.*

### Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a) (3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC.

Docket Number: 96-067. Applicant: Woods Hole Oceanographic Institution, 266 Woods Hole Road, Woods Hole, MA 02543. Instrument: 5 Window Beta Detector with Anticoincidence, Model GM-25-5. Manufacturer: Risoe National Laboratory, Denmark. Intended Use: The instrument will be used for sampling the ocean at different depths to estimate carbon fluxes out of the upper water. This is a number that needs to be plugged into ocean/atmosphere models to estimate such things as global warming. Application accepted by Commissioner of Customs: June 19, 1996.

Docket Number: 96-068. Applicant: The University of Vermont, Burlington, VT 05405. Instrument: Multisample Inlet Manifold for Mass Spectrometer. Manufacturer: Pro-Vac Services, United Kingdom. Intended Use: The instrument is an accessory used to automate sample analysis performed with a mass spectrometer which will increase the daily sample processing. The mass spectrometer is used to determine stable isotope abundances of the elements C, O, N and S in natural materials for a variety of environmental, biological and ecological research projects. In addition, the accessory will be used for educational purposes in the course Environmental Isotope Geochemistry. Application accepted by Commissioner of Customs: June 20, 1996.

Docket Number: 96-069. Applicant: Arizona State University, Department of Zoology, Box 871501, Tempe, AZ 85287-1501. Instrument: Image Analysis System with Macro Accessory Package. Manufacturer: Imaging Research Inc., Canada. Intended Use: The instrument will be used for *in situ* hybridization studies and *in vitro*

receptor autoradiography. The neurochemical data will be analyzed at various levels of neuroanatomical detail. These experiments will be conducted to determine how stress alters the major neurotransmitter systems in the hippocampus in the hope of understanding how stress alters the functional status of the hippocampus. Application accepted by Commissioner of Customs: June 26, 1996.

Docket Number: 96-070. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, MA 02139. Instrument: Compact Geotechnical Centrifuge. Manufacturer: Chiker Technologies, United Kingdom. Intended Use: The instrument will be used to conduct experimental investigations of problems involving soil and groundwater behavior. Experiments will be conducted to examine how contaminants move through soil bodies under a variety of different conditions and under the influence of different body forces. In addition, the experiments will be conducted to investigate the performance of different *in situ* remediation technologies, such as "pump-and-treat," air-sparging and surfactant flushing, that are available for cleaning up contaminated soil sites. The instrument will also be used in the course Introduction to Geotechnical Engineering that teaches the fundamentals of soil behavior and soil-structure interaction. Application accepted by Commissioner of Customs: June 26, 1996.

Frank W. Creel,

*Director Statutory Import Programs Staff.*

### Yale University; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 96-023. Applicant: Yale University, New Haven, CT 06510. Instrument: Shielded Gradient System, Model IC60. Manufacturer: Oxford Magnet Technology, United Kingdom. Intended Use: See notice at 61 FR 25622, May 22, 1996.

Comments: None received. Decision: Approved. No instrument of equivalent
