DEPARTMENT OF TRANSPORTATION

Office of the Secretary

**Reports, Forms and Recordkeeping
 Requirements; Agency Information
 Collection Activity Under OMB Review**

AGENCY: Office of the Secretary (OST),
 Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: In compliance with the
 Paperwork Reduction Act (44 U.S.C.

3501 *et seq.*), this notice announces that the Information Collection Requests (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden. As required by the Paperwork Reduction Act of 1995, notices were published in the Federal Register stating DOT's intention to request extensions for currently approved information collections and reinstatements of an expired information collections. Interested persons are invited to send comments regarding the burden estimate or any other aspect of this collection of information, including any of the following: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection.

DATES: Comments must be submitted on or before August 24, 1996.

Title: Crash Risk of Alcohol-Involved Driving Study; Proposed Information Collection.

Administration: National Highway Traffic Safety Administration, DOT.

OMB Control Number: 2127-New.

Type of Review: Regular submission.

Affected Entities: A total of approximately 10,000 drivers (1000 crash and 4000 non-crash (control) at each site).

Abstract: The National Highway Traffic Safety Administration (NHTSA) and the National Institute on Alcohol Abuse and Alcoholism (NIAAA) play key roles in national efforts to reduce alcohol involved crash injuries and fatalities. NHTSA and NIAAA have jointly funded a study to determine the relative risk of crash involvement associated with elevated blood alcohol concentrations (BACs) when compared with a zero blood alcohol concentration. One important part of the data collection for this effort is a questionnaire to measure crash and alcohol covariates in the population being studied. Current data of this kind do not exist and cannot be collected by any other method.

Need for Information: NHTSA and NIAAA are committed to the development of effective programs to reduce this morbidity and mortality due to driving under the influence (DUI). To aid in filling this commitment, a better understanding of driver characteristics

and alcohol levels in alcohol-involved crashes is required.

Annual Burden: 1,417 hours.

Title: Customer Satisfaction Surveys.

Administration: United States Coast Guard, DOT.

OMB Control Number: 2115-0625.

Type of Request: New Collection.

Affected Entities: Maritime industry and recreational boating public.

Abstract: Customer satisfaction surveys are required by Executive Order 12862, Setting Customer Service Standards, to ensure that the USCG provides the highest quality service to our customers. Steps will be taken to assure anonymity of respondents in each activity covered under this request.

Need for Information: Executive Order 12862, Setting Customer Service Standards, directs USCG to conduct surveys to determine the kind and quality of services the marine industry and the recreational boating public wants and expect.

Annual Responses: 41,695.

Annual Burden: 16,005 hours.

Title: Application for Employment with the Federal Aviation Administration.

Administration: Federal Aviation Administration, DOT.

OMB Control Number: 2120-0597.

Type of Request: New Collection.

Affected Entities: The likely respondents will be the general public who are interested in employment with this agency.

Abstract: The collection of information is an application for employment with the Federal Aviation Administration. Applicants will have to complete a number of background questions to determine their basic eligibility for Federal employment and also answer specific occupation-related questions to determine their qualifications.

Need for Information: P.L. 104-50 authorized the Federal Aviation Administration to establish its own personnel system outside most of the requirements of Title 5. The only provisions related to hiring that will continue to apply are those dealing with veteran's preference. One of the recommendations of our personnel reform task forces, and in keeping with reengineered business processes under the National Performance Review, we are attempting to centralize and automate some of our application, evaluation and hiring processes. This application is a part of that effort. We propose to utilize the information collected to make determinations on applicant's eligibility for Federal employment as well as determining their qualifications for employment and

certifying the name of qualified applicants to line managers who will make hiring decisions.

Annual Responses: 5,000.

Annual Burden: 5,000 hours.

Title: Advisory Committee Candidate Biographical Information Request, DOT F1120.1.

Administration: Office of the Secretary, DOT.

OMB Control Number: 2105-0009.

Type of Request: Extension for a currently approved information collection.

Affected Entities: Individuals who have contacted DOT to indicate an interest in appointment to an advisory committee and individuals who have been recommended for membership on an advisory committee. Only one collection is expected per individual.

Abstract: The collection of information obtained by the Advisory Committee Candidate Biographical Information Request form enables Departmental officials to review the qualifications of individuals who wish to serve on Department-sponsored advisory committees and the qualifications of persons who have been recommended to serve. The collection provides uniform data for each individual and enables DOT to comply with the Federal Advisory Committee Act (Pub. L. 92-463) (5 U.S.C. App.) which requires that advisory committee membership be balanced.

A number of DOT's advisory committees were created by statute, and have statutory requirements for education, experience, or expertise. The data collection enables DOT to comply with such statutory membership requirements, by providing information from which officials may determine which individuals meet specific qualification standards for particular advisory committees and for particular positions within a committee. In fact, some statutory committees require very narrow and specific expertise for each position on the committee, which can be ascertained by reviewing the Advisory Committee Candidate Biographical Information Request form.

Finally, the data collection allows officials to retain a file of interested applicants. As vacancies occur on specific advisory committees, the applications and qualifications can be reviewed for possible placement.

Need for Information: In the absence of the data collection, officials would have to contact by telephone or by letter each person who expressed an interest or who was recommended for an advisory committee position, to determine his/her interest, education, experience, or expertise. This would be

a more time-consuming and costly data collection effort which would have to be repeated if the individual were to be considered at a later time for vacancies on other advisory committees.

Annual Responses: 1.

Annual Burden: 25 hours.

Title 46 U.S.C. 3303 authorizes the Coast Guard to regulate the transportation, stowage and use of ships' stores and supplies of a dangerous nature.
