**NUCLEAR REGULATORY COMMISSION**

[Docket Nos. 50-254 and 50-265]

**Commonwealth Edison Company and MidAmerican Energy Company, (Quad Cities Nuclear Power Station, Units 1 and 2); Order Approving the Indirect Transfer of Licenses as Part of the Corporate Restructuring of MidAmerican Energy Company by Establishment of a Holding Company**

I

MidAmerican Energy Company (MEC) holds a 25-percent ownership interest in

Quad Cities Nuclear Power Station, Units 1 and 2. Commonwealth Edison Company (ComEd) owns the remaining 75-percent share of the facility. MEC and ComEd are governed by Facility Operating License Nos. DPR-29 and DPR-30 issued by the U.S. Atomic Energy Commission pursuant to Part 50 of Title 10 of the Code of Federal Regulations (10 CFR Part 50) on December 14, 1972. Under these licenses, ComEd, acting as agent and representative of the two owners listed on the licenses, has the authority to operate the Quad Cities Nuclear Power Station, Units 1 and 2. Quad Cities is located in Rock Island County, Illinois.

II

By letter dated April 4, 1996, MEC informed the Commission that it was in the process of implementing a corporate restructuring. MEC proposes to restructure itself by establishing a holding company, MidAmerican Energy Holdings Company (MEHC), which would become the parent corporation to, and sole owner of, MEC. MEC would continue to remain a 25-percent minority owner and possession-only licensee of the Quad Cities Nuclear Power Station, Units 1 and 2. MEC would remain an "electric utility" as defined in 10 CFR 50.2, engaged in the generation, transmission, and distribution of electric energy for wholesale and retail sale. Upon consummation of the restructuring, common stockholders of MEC would receive one share of stock in MEHC in exchange for each share of MEC stock held. MEC requested the Commission's approval of the indirect license transfers to the extent affected by the proposed corporate restructuring, pursuant to 10 CFR 50.80. Notice of this request for approval was published in the Federal Register on June 14, 1996 (61 FR 30263).

Upon review of the information submitted in MEC's letter of April 4, 1996, and other information before the Commission, the NRC staff has determined that the restructuring, subject to the conditions set forth herein, will not affect the qualifications of MEC as a holder of the license, and is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission. These findings are supported by a Safety Evaluation dated July 29, 1996.

III

By September 3, 1996, any person adversely affected by this Order may file a request for a hearing with respect to issuance of the Order. Any person requesting a hearing shall set forth with particularity how that interest is

adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).

If a hearing is to be held, the Commission will issue an Order designating the time and place of such hearing.

The issue to be considered at any such hearing shall be whether this Order should be sustained.

Any request for a hearing must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Docketing and Services Branch, or may be delivered to 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. Federal workdays, by the above date. Copies should be also sent to the Office of the General Counsel and the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; Michael I. Miller, Esquire, Sidley and Austin, One First National Plaza, Chicago, Illinois 60603, attorney for ComEd; and Jack R. Newman, Esquire, Morgan, Lewis and Bockius, LLP, 1800 M Street, NW, Washington, D.C. 20036, attorney for MEC.

#### IV

Accordingly, pursuant to Sections 161b, 161i, 161o, and 184 of the Atomic Energy Act of 1954, as amended, 42 USC 2201(b), 2201(i), 2201(o), and 2234; and 10 CFR 50.80, *It is hereby ordered* That the Commission consents to the indirect transfers of the licenses held by MEC to the extent affected by the proposed restructuring of MEC subject to the following: (1) MEC shall provide the Director of the Office of Nuclear Reactor Regulation a copy of any application, at the time it is filed, to transfer (excluding grants of security interests or liens) from MEC to its proposed parent or to any other affiliated company, facilities for the production, transmission, or distribution of electric energy having a depreciated book value exceeding one percent (1%) of MEC's consolidated net utility plant, as recorded on MEC's books of account, and (2) should the restructuring of MEC not be completed by December 31, 1997, this Order shall become null and void, provided, however, on application and for good cause shown, such date may be extended.

For further details with respect to this action, see the application for consent concerning the proposed corporate restructuring of MEC dated April 4, 1996, which is available for public inspection at the Commission's Public Document Room, the Gelman Building,

2120 L Street, NW., Washington, DC, and at the local public document room located at the Dixon Public Library, 221 Hennepin Avenue, Dixon, Illinois.
