*Needs and Uses:* The Current Population Survey (CPS) is a monthly survey conducted in approximately 48,000 households throughout the United States. Data on demographic and labor force characteristics are collected from a sample of households which represent the U.S. population. Households remain in the sample for 2 years and are interviewed 8 times over that period. The basic monthly questionnaire is periodically supplemented with additional questions which address specific needs. The Bureau of the Census uses the data to compile monthly averages of household size and composition, age, education, ethnicity, marital status and various other characteristics at the U.S. level.

The Bureau of Labor Statistics (BLS) sponsors and will request separate clearance for the labor force portion of the CPS. BLS uses this data in their monthly calculations of employment and unemployment. This request is for clearance of basic demographic items such as age, marital status, sex, Armed Forces status, education, race, origin, family income, and country of birth. These basic demographic questions are asked of household members in the first interview and are updated during remaining interviews. The demographic items provide the basic demographic descriptions for the survey population.

*Affected Public:* Individuals or households.

*Frequency:* Monthly.

*Respondent's Obligation:* Voluntary.

*OMB Desk Officer:* Jerry Coffey, (202) 395-7314.
