SUPPLEMENTARY INFORMATION

Title: Requirements for Generators, Transporters, and Waste Management Facilities Under the RCRA Hazardous Waste Manifest System, ICR No. 801.11, OMB No. 2050-0039. This request is an extension of a currently approved collection.

Abstract: EPA's authority to require compliance with the manifest system stems primarily from RCRA § 3002(a)(5). This section mandates a hazardous waste manifest system to assure that all hazardous waste generated is designated for and arrives at the appropriate treatment, storage, disposal facility. An essential part of the manifest system is the Uniform Hazardous Waste Manifest (Form 8700-22A). The manifest is a tracking document that accompanies the waste from its generation site to its final disposition. The manifest lists the wastes that are being shipped and the final destination of the waste.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 1, 1996 (61 FR 14303); 8 comments were received.

Burden Statement: The reporting burden per response for this collection of information is estimated to average 25 minutes for generators, 10 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. The record keeping burden per response for this collection of information is estimated to average 6 minutes for generators, 6 minutes for transporters, and 6 minutes for treatment, storage and disposal facilities.
