SUPPLEMENTARY INFORMATION:

Title: Animal Welfare.

OMB Number: 0579-0093.

Expiration Date of Approval:

December 31, 1996.

Type of Request: Extension of a currently approved information collection.

Abstract: Regulations and standards have been promulgated under the Animal Welfare Act (the Act) to ensure that animals intended for use in research facilities, for exhibition purposes, or for use as pets, are provided humane care and treatment. The humane treatment of animals during transportation in commerce is also assured. Sections 10, 11, 12, and 13 of the Act authorize and require certain recordkeeping requirements for regulated facilities which are further explained in 9 CFR part 3, subparts A and D of the regulations and standards.

The records provide the necessary data for reviewing and evaluating program compliance by regulated facilities, and provide a workable enforcement system to carry out the requirements of the Act, and the intent of Congress, on a practical daily basis without resorting to more detailed and stringent regulations and standards.

The above reporting and recordkeeping requirements do not mandate the use of any official government form.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. We need this outside input to help us:

(1) Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .547 hours per response.

Respondents: Dealers, exhibitors, carriers, handlers, and research facilities.

Estimated Number of Respondents: 8,200.

Estimated Number of Responses per Respondent: 9.798.

Estimated Total Annual Burden on Respondents: 43,975 hours.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection.

Done in Washington, DC, this 13th day of August 1996.

Terry L. Medley,

Administrator, Animal and Plant Health Inspection Service.
