

the Glen Canyon Powerplant will be released through the Glen Canyon Powerplant as soon as practicable to equalize the active storage in Lake Powell and Lake Mead.

(5) Releases from Lake Powell pursuant to these criteria shall not prejudice the position of either the upper or lower basin interests with respect to required deliveries at Lees Ferry pursuant to the Colorado River Compact.

III. Operation of Lake Mead

(1) Water released from Lake Powell, plus the tributary inflows between Lake Powell and Lake Mead, shall be regulated in Lake Mead and either pumped from Lake Mead or released to the Colorado River to meet requirements as follows:

(a) *Normal*. The annual pumping and release from Lake Mead will be sufficient to satisfy 7,500,000 acre-feet of annual consumptive use in accordance with the decree in *Arizona v. California*, 376 U.S. 340 (1964).

(b) *Surplus*. The Secretary shall determine from time to time when water in quantities greater than "Normal" is available for either pumping or release from Lake Mead pursuant to Article II(B)(2) of the decree in *Arizona v. California* after consideration of all relevant factors, including, but not limited to, the following:

- (i) The requirements stated in Article III(1) of these Operating Criteria;

- (iii) Actual and forecast quantities of active storage in Lake Mead and the Upper Basin Storage Reservoirs; and
- (iv) Estimated net inflow to Lake Mead.

(c) *Storage*. The Secretary shall determine from time to time when

insufficient mainstream water is available to satisfy annual consumptive use requirements of 7,500,000 acre-feet after consideration of all relevant factors, including, but not limited to, the following:

- (i) The requirements stated in Article III(1) of these Operating Criteria;
- (ii) Actual and forecast quantities of active storage in Lake Mead;
- (iii) Estimate of net inflow to Lake Mead for the current year;
- (iv) Historic streamflows, including the most critical period of record;
- (v) Priorities set forth in Article II(a) of the decree in *Arizona v. California*; and
- (vi) The purposes stated in Article I(1) of these Operating Criteria.

The shortage provisions of Article II(B)(3) of the decree in *Arizona v. California* shall thereupon become effective and consumptive uses from the mainstream shall be restricted to the extent determined by the Secretary to be required by section 301(b) of Public Law 90-537.

IV. Definitions

(1) In addition to the definitions in section 606 of Public Law 90-537, the following shall also apply:

(b) *Surplus*, as used in Article III(3)(b) herein, is water which can be used to meet consumptive use demands in the three Lower Division States in excess of 7,500,000 acre-feet annually. The term "surplus" as used in these Operating Criteria is not to be construed as applied to, being interpretive of, or in any manner having reference to the term "surplus" in the Colorado River Compact.

(c) *Net inflow to Lake Mead*, as used in Article III(3) (b)(iv) and (c)(iii) herein, represents the annual inflow to Lake Mead in excess of losses from Lake Mead.

SUPPLEMENTARY INFORMATION:

Overview

The Violent Crime Control and Law Enforcement Act of 1994 (Pub. L. 103-322) authorizes the Department of Justice to make grants to increase deployment of law enforcement officers devoted to community policing on the streets and rural routes in this nation. COPS MORE 96 is designed to expand the time available for community policing by current law enforcement officers, rather than fund the hiring or rehiring of additional law enforcement officers.

COPS MORE 96 permits eligible agencies to seek funding for the purchase of equipment and technology, and the procurement of support resources (including civilian personnel). As a result of this funding, the number of officers redeployed by agencies in community policing must be equal to or greater than the number of officers that would result from grants of the same amount for hiring new officers. Application Kits will be available after August 23, 1996. Completed Applications Kits must be received by the COPS Office between September 9 and October 31, 1996.

Applicants must provide a thorough explanation of how the proposed redeployment funds will actually result in the required increase in the number of officers deployed in community policing. Additionally, the applicant must specify within the COPS MORE 96 Application a plan for continuing the proposed activity following the conclusion of COPS MORE 96 funding. Technical assistance with the development of community policing plans will be provided to jurisdictions in need of such assistance. Grants will be made for up to 75 percent of the cost of the equipment, technology, or civilian salaries for one year, with the remainder to be paid by state or local funds. Waivers of the non-federal share will be considered upon a showing of severe fiscal distress. COPS redeployment funds may not be used to replace funds that eligible agencies otherwise would have devoted to equipment, technology, or civilian hiring.

COPS funding must be allocated based on a formula previously established by Congress. Under this formula, 50 percent of the annual grant funds are awarded to jurisdictions serving populations over 150,000, and 50 percent of the funds are awarded to those serving 150,000 or below. The COPS Office already has reached the funding limit for FY 96 for smaller jurisdictions, therefore applications for
