

## II. Method of Collection

The March 1997 supplement instrument will consist of the same items that were included in the March 1996 instrument, with the following changes:

A. We are making minor wording changes in some items. For example:

- We will no longer ask respondents to "report" income amounts; instead, we will ask them to "tell us" those amounts. According to interviewers, respondents felt offended by the word "report."

B. We added internal check items so that questions are asked only when appropriate. For example:

- In Items Q49a through Q49b3, we will no longer ask persons to tell us their business or farm income without determining first if they are a farm or business owner.
- Households that consist of adults who were never married will be screened out of the alimony questions.

C. In some periodicity items, we limited the categories to monthly, quarterly, and yearly. Also, we changed any coding within a series to reflect the new periodicity categories. We did this where no other period was selected in last year's survey.
